Introduction

The Polytechnic University of the Philippines remains steadfast in its commitment to delivering inclusive, equitable, and quality education while fostering lifelong learning opportunities that contribute to human development and social transformation. Through continuously re-engineered polytechnic academic programs, the University seeks to uphold excellence in instruction, research, and public service. In support of this mission, the members of the PUP community consistently strive to enhance the quality of university services through the effective implementation and regular improvement of its Quality Management System, ensuring responsiveness to the evolving needs of its stakeholders.

Aligned with the vision and mission of Polytechnic University of the Philippines, the Bachelor of Science in Information Technology program advances the goals of the College of Computer and Information Sciences in cultivating globally competitive, innovative, and critically minded IT professionals. The program promotes a culture of creativity, technological advancement, and academic excellence, preparing students to become competent leaders and contributors in the ever-evolving field of information technology.

At Polytechnic University of the Philippines Sto. Tomas Campus, the pursuit of quality and relevant education serves as the foundation of its academic mission. The campus remains dedicated to providing education that addresses the demands of contemporary society while helping shape the future through responsive and transformative learning experiences. Guided by this commitment, the University continuously strengthens its academic offerings and implements educational strategies that equip students with industry-relevant, managerial, and entrepreneurial competencies. These initiatives aim to develop graduates who are creative, productive, competitive, and self-reliant individuals capable of thriving in a rapidly changing global environment.

Quality

As one of the country's leading academic institutions, the University remains committed to delivering education that upholds the highest standards of quality, excellence, and academic integrity.

Relevant

Through its diverse academic programs, the University provides students with essential knowledge and practical skills that are responsive to current industry and societal demands, enabling them to become highly competitive and resourceful individuals.

Flexible

The University promotes accessible and adaptable learning by offering educational programs that accommodate various learning environments—whether in the classroom, at home, or online—particularly addressing the needs of working students and individuals with varying life circumstances.

Accredited

The Bachelor of Science in Information Technology (BSIT) program of Polytechnic University of the Philippines Sto. Tomas Campus continuously demonstrates its commitment to academic excellence and quality assurance through its accreditation achievements under the Accrediting Agency of Chartered Colleges and Universities in the Philippines. The program successfully attained Level I Accreditation in 2020, signifying its compliance with established standards in instruction, faculty qualifications, curriculum, student services,

Website: www.pup.edu.ph | Inquiries: <https://bit.ly/PUPSINTA>

**A LEADING COMPREHENSIVE
POLYTECHNIC UNIVERSITY IN ASIA**

research, and facilities. Building on this accomplishment, the BSIT program further advanced by earning Level II Accreditation in 2023, reflecting its sustained commitment to continuous improvement, quality education, and the development of competent and industry-ready information technology professionals. These milestones affirm the institution's dedication to providing relevant, responsive, and globally competitive IT education to its students.

Legal Basis

Guided by the vision, mission, goals, and objectives of Polytechnic University of the Philippines Sto. Tomas Campus, the BSIT program continuously adapts to the evolving educational landscape and the changing needs of learners and society. The curriculum is designed not only to deliver technical knowledge but also to develop students' responsiveness, innovation, and competitiveness in the field of Information Technology. Committed to providing quality and industry-relevant IT education, the program promotes a dynamic curriculum aligned with current technological and societal demands. Its implementation is anchored on key legal and regulatory foundations, including **PUP Board Resolution No. 1875, s. 2018**, **Commission on Higher Education Memorandum Order No. 25, s. 2015**, and **Certificate of Program Compliance (COPC) No. 006, s. 2020**.

About the Bachelor of Science in Information Technology

In 1996, the Bachelor of Computer Data Processing Management was first offered in PUP Sto. Tomas Campus. It was later in 1999 and was changed to Bachelor of Science in Computer Science. Due to the changing landscape and demand in IT program, it was changed to Bachelor of Science and Technology in SY 2006-2007, offering to only one section.

The Bachelor of Science in Information Technology (BSIT) program of Polytechnic University of the Philippines Sto. Tomas Campus is a four-year degree program centered on the study and application of information technology, including the planning, development, implementation, and maintenance of computer systems and IT infrastructure. The program equips students with the knowledge and technical skills needed to develop real-world technology solutions through systems analysis and design, applications development, database management, network administration, and systems implementation and maintenance.

As part of the curriculum, students are required to complete a Capstone Project focused on developing innovative IT-based solutions that address industry and community needs. The program aims to produce competent, innovative, and globally competitive IT professionals who embody critical thinking, creativity, and technical excellence, in alignment with the vision and mission of Polytechnic University of the Philippines and the goals of the PUP Sto. Tomas Campus.

The BSIT Faculty Members and their Educational Background

Name of Core Faculty Member	Academic Rank / Employment Status	Degree Earned	Institution	Year Obtained
 Bolambot, Elaine	Instructor I / Permanent	BS Computer Science	Faith Colleges	2005
		Master in Information Technology	Faith Colleges	2023
		Doctor of Information Technology (CAR)	La Consolacion University, Philippines	On-going
 Castillo, Melani L.	Associate Professor V / Permanent	BS Computer Science	University of Batangas	1997
		Master in Information Technology	Polytechnic University of the Philippines – Graduate School	2005
		Doctor in Public Administration		2014
 De Claro, Christopher Jay	Instructor I / Part Time	BS Information Technology	Polytechnic University of the Philippines – Sto. Tomas Campus	2019
		Master in Information Technology	Polytechnic University of the Philippines – Open University System	Dissertation (on-going)
 Dela Rea, Aristeo	Instructor I / Permanent	BS in Information & Computer Science	Lyceum of the Philippines - Batangas	1999
		Master of Science in Information System	University of the Philippines - Open University	2025

 Madera, Joshua	Instructor I / Part Time	BS Computer Science		
		Master in Information Technology		
 Velasco, Marienel N.	Associate Professor III / Permanent	BS Computer Science	Polytechnic University of the Philippines – Sto.Tomas Campus	2007
		Master in Information Technology	Polytechnic University of the Philippines – Graduate School	2014
		Doctor of Information Technology	La Consolacion University, Philippines	2023

In this narrative report, the following are presented:

1. Well-defined Objectives
2. Adequate and Relevant Projects/Activities to Achieve the Objectives
3. Systematic and Effective Procedures
4. Reasonable Budget
5. Provision of Materials and Resources
6. Participation of Significant Number of Faculty/Staff/ Students/ Communities in Major Projects or Activities
7. Awards of Distinction and Achievement and Grants of this Program
8. Best Practices

PUP Vision

A LEADING COMPREHENSIVE POLYTECHNIC UNIVERSITY IN ASIA

PUP Mission

Advance an inclusive, equitable, and globally relevant polytechnic education towards national development.

Strategic Goals

Pillar 1: Teaching and Learning

SG 1: Innovative Curricula and Instruction

SG 2: Empowered, Expert, and Productive Faculty Members

SG 3: Holistic Student Development

Pillar 2: Research and Extension

SG 4: Intensified Research Innovation, Dissemination and Utilization

SG 5: Strengthened Sustainable and Impactful Extension Program

SG 6: Expanded Research and Extension Networks with Local, National, and International Partners

Pillar 3: Internal Governance

SG 7: Transformational University Leadership

SG 8: Judicious and Ethical Stewardship of Physical and Financial Resources

SG 9: Effective and Efficient Human Resource Management

SG 10: Excellent Citizen/Client Satisfaction

SG 11: Smart Campuses

Core Values

- Integrity and Accountability
- Nationalism
- Sense of Service
- Passion for Learning and Innovation
- Inclusivity
- Respect for Human Rights and the Environment
- Excellence
- Democracy

PUP STO. TOMAS GOALS

The PUP Sto. Tomas Branch commits to accomplishing the following goals:

1. Sustain a culture of quality among the branch stakeholders by providing opportunities for student, faculty and staff development at the local, regional, national and international levels.
2. Develop and nurture collaborative research culture.
3. Champion knowledge and technology transfer through responsive sustainable and development-oriented community extension programs.
4. Provide a learning-conducive campus environment where technology driven resources are available to students, faculty members are available to students, faculty members and staff in enlarging their skills and competencies to meet the demands of the changing times.
5. Ensure continuous improvement in the various areas of its operations through productive partnership and engagements with public, private and civil society acquire time

Objectives of the Program

Program Description

- A 4-year college degree program which focuses on the study of computer utilization and computer software to plan, install, customize, operate, manage, administer, and maintain information technology infrastructure.
- It deals with the design and development of computer-based information systems for real-world business solutions.
- The program prepares students to become IT professionals with primary competencies in the areas of systems analysis and design, applications development, database administration, network administration, and systems implementation and maintenance
- The program also requires a Capstone project. It should be in the form of an IT applications development as a business solution for an industry need.

Objectives of the IT Program

1. Learn the different components of the information technology field, including hardware, software, communication, networking, research, peopleware and management skills;
2. Analyze the current technologies and tools while learning new methodologies that will lead to the development of efficient information systems;
3. Evaluate organizational systems and processes to recommend software solutions that properly address the organization's needs and goals;
4. Perform Information Technology-related researches through the application of applied research methodologies to develop new system;
5. Practice ethical and social responsibility as a member of the workforce and society.

BSIT Program Outcome:

After finishing the BSIT program, its graduate is expected to:

1. Apply knowledge of computing, science, and mathematics appropriate to the discipline; (ILO #1 & 5)
2. Understand best practices and standards and their applications. (ILO #1)
3. Analyze complex problems and identify and define the computing requirements appropriate to its solution; (ILO #1 & 2)
4. Identify and analyze user needs and take into account in the selection, creation, evaluation, and administration of computer-based systems;
5. Design, implement, and evaluate computer-based systems, processes components or programs to meet desired needs and requirements under various constraints; (ILO #1)
6. Integrate IT-based solutions into the user environment effectively; (ILO #1 & 5)
7. Apply knowledge through the use of current techniques, skills, tools, and practices necessary for the IT profession; (ILO #1 & 5)
8. Function effectively as a member or leader of a development team recognizing the different roles within a team to accomplish a common goal; (ILO #7)
9. Assist in the creation of an effective IT project plan; (ILO #5)
10. Communicate effectively with the computing community and with society at large about complex computing activities through logical writing presentations, and clear instructions; (ILO #2)
11. Analyze the local and global impact of computing information technology on individuals, organizations, and society; (ILO #9)
12. Understand professional, ethical, legal, security and social issues and responsibilities in the utilization of information technology; (ILO #8)

Matrix of BSIT Objectives, Pillar, and PUP Sto. Tomas Goals

The following table shows that the objectives of the Bachelor of Science in Information Technology is in line with the PUP Sto. Tomas goals and objectives and the Ten Pillars of the University.

BSIT Objectives	Pillar / Strategic Goals	PUP Sto. Tomas Goals
1. Learn the different components of the information technology field, including hardware, software, communication, networking, research, peopleware and management skills;	Pillar 1: Teaching and Learning SG 1: Innovative Curricula and Instruction	Sustain a culture of quality among the branch stakeholders by providing opportunities for student, faculty and staff development at the local, regional, national and international levels.
2. Analyze current technologies and tools while	Pillar 1: Teaching and Learning	Provide a learning-conducive campus

learning new methodologies that will lead to the development of efficient information systems;	SG 1: Innovative Curricula and Instruction SG 3: Holistic Student Development	environment where technology driven resources are available to students, faculty members are available to students, faculty members and staff in enlarging their skills and competencies to meet the demands of the changing times
3. Evaluate organizational systems and processes to recommend software solutions that properly address the organization's needs and goals;	Pillar 2: Research and Extension SG 4: Intensified Research Innovation, Dissemination and Utilization SG 5: Strengthened Sustainable and Impactful Extension Program SG 6: Expanded Research and Extension Networks with Local, National, and International Partners	Champion knowledge and technology transfer through responsive sustainable and development-oriented community extension programs.
4. Perform Information Technology-related research through the application of applied research methodologies to develop new system;	Pillar 2: Research and Extension SG 4: Intensified Research Innovation, Dissemination and Utilization SG 5: Strengthened Sustainable and Impactful Extension Program SG 6: Expanded Research and Extension Networks with Local, National, and International Partners	Develop and nurture collaborative research culture.
5. Practice ethical and social responsibility as a member of the workforce and society. Sample Syllabi with Course Objectives, ILO and Program Outcomes

COURSE TITLE:	Introduction to Computing
COURSE CODE:	COMP 20013 (IT)
CREDIT UNITS:	3 Units / 5 Hours (2 Units Lecture and 1 Unit Lab)
COURSE PREREQUISITE:	None

COURSE DESCRIPTION:	This course is designed to provide students with a breadth-first overview of computing fundamentals. The materials covered in this course include concepts such as components of the computer system, number system operation and conversion, data representation, digital logic system, levels of programming computer networks, computer applications, current trends and issues.	
Institutional Learning Outcomes	Program Outcomes	Course Outcomes
1. Creative and Critical Thinking Graduates use their imaginative as well as rational thinking abilities to life situations in order to push boundaries, realize possibilities, and deepen their interdisciplinary and general understanding of the world.	Apply knowledge of computing, science, and mathematics appropriate to the discipline. Analyze complex problems, and identify and define the computing requirements appropriate to its solution. Identify and analyze user needs and take them into account in the selection, creation, evaluation and administration of computer-based systems.	Explain fundamental principles, concepts and evolution of computing systems as they relate to different fields. Identify and define components of the computer system. Compare and understand the different number systems such as binary, decimal, and hexadecimal number systems. Perform number conversion, fixed point and floating point number representation.
2. Effective Communication Graduates are proficient in the four macro skills in communication (reading, writing, listening, and speaking) and are able to use these skills in solving problems. Making decisions and articulating thoughts when engaging with people in various circumstances.	Communicate effectively with the computing community and with society-at-large about complex computing activities through logical writing presentations, and clear instructions.	Understand the concepts of data communication, network components, protocols and internet issues.
3. Strong Service Orientation	Function effectively as a member or leader of a development team	Analyze solutions employed by organizations to address different computing issues.

Graduates exemplify the potentialities of an efficient, well-rounded and responsible professional deeply committed to service excellence.	recognizing the different roles within a team to accomplish a common goal.	
4. Community Engagement Graduates take an active role in the promotion and fulfillment of various advocacies (educational, social and environmental) for the advancement of community welfare.	Analyze the local and global impact of computing information technology on individuals, organizations, and society. Integrate IT-based solutions into the user environment effectively.	Evaluate tools and techniques for purposes of identifying best practices in computing development.

COURSE TITLE:		Computer Programming 1	
COURSE CODE:		COMP 20023	
CREDIT UNITS:		3 Units / 5 Hours (2 Units Lecture and 1 Unit Lab)	
COURSE PREREQUISITE:		None	
COURSE DESCRIPTION:		This course introduces the students to the fundamentals of logic formulation and allows the students to learn and apply the art and style of procedural programming to solve computational problems adhering to the standards and guidelines of documentation. It includes discussion on I/O statements, loop and branching instruction, and creating functions and procedures.	
INSTITUTIONAL INTENDED LEARNING OUTCOMES (ILO)	PROGRAM INTENDED LEARNING OUTCOMES (PILO) COLLEGE		COURSE INTENDED LEARNING OUTCOMES (CILO) SUBJECTS
	BSIT	BSIT Graduate Outcomes	Course Outcomes
Creative and Critical Thinking	IT01	Apply knowledge of computing, science, and mathematics appropriate to the discipline.	Design, implement, test and debug a program, based on a given specification that uses such of the following fundamental programming components: (1) primitive
	IT03	Analyze complex problems, and identify and define the	

		computing requirements appropriate to its solution.	data types, (2) basic computation, (3) simple I/O, (4) conditional and iterative structures, (5) definition of functions, and parameters. Assess and recommend revisions to another programmer's code (1) regarding documentation and program style standards that contribute to readability and maintainability of software, (2) regarding appropriateness of chosen conditional and iterative constructs given a programming task, and (3) regarding thoroughness in applying procedural abstraction.
	IT04	Identify and analyze user needs and take them into account in the selection, creation, evaluation, and administration of computer based systems.	
	IT05	Design, implement, and evaluate computer based systems, processes, components, or programs to meet desired needs and requirements under various constraints.	
	IT06	Integrate IT-based solutions into the user environment effectively.	
	IT09	Assist in the creation of an effective IT project plan.	
Adeptness in the Responsible Use of Technology	IT07	Apply knowledge through the use of current techniques, skills, tools, and practices necessary for the IT profession.	
Community Engagement	IT02	Understand best practices and standards and their applications.	
High Level of Leadership and Organizational Skills	IT08	Function effectively as a member or leader of a development team recognizing the different roles within a team to accomplish a common goal.	
Strong Service Orientation			
Effective Communication	IT10	Communicate effectively with the computing community and with society at large about complex computing activities through logical writing,	

		presentations, and clear instructions.	
Sense of Nationalism and Global Responsiveness	IT11	Analyze the local and global impact of computing information technology on individuals, organizations, and society.	
Sense of Personal and Professional Ethics	IT12	Understand professional, ethical, legal, security and social issues and responsibilities in the utilization of information technology.	
Passion to Life-Long Learning	IT13	Recognize the need for and engage in planning self-learning and improving performance as a foundation for continuing professional development.	

Minimum number of Units of BSIT based on CHED Memo 24 Series of 2015

	BSCS	BSIS	BSIT
General Education	36.0	36.0	36.0
Common Courses	18.0	18.0	18.0
Professional Courses	48.0	48.0	48.0

Minimum Total Units	146.0	146.0	146.0

Computing Common Courses

The common courses for the BSCS, BSIS, and BSIT:

- Introduction to Computing (CC 101)
- Computer Programming 1 (Fundamentals of Programming) (CC 102)
- Computer Programming 2 (Intermediate Programming) (CC 103)
- Data Structures and Algorithms (CC 104)
- Information Management (CC 105)
- Applications Development and Emerging Technologies (CC 106)

Section 8.2

Specific Description of Program Curricula

Bachelor of Science in Information Technology (BSIT):

- The Information Technology curriculum includes basic and advanced courses on planning, development, integration, and management of information technology infrastructure that provide computing solutions to address the needs of organizations.
- The curriculum should include courses that cover Knowledge Areas as recommended in ACM Information Technology Curricula 2008
- 11 Knowledge Areas have been specified in the PSG

Information Technology Knowledge Areas

1. Information Technology Fundamentals
2. Human Computer Interaction
3. Information Assurance and Security
4. Information Management
5. Integrative Programming and Technologies
6. Networking
7. Platform Technologies
8. Systems Administration and Maintenance
9. Systems Integration and Architecture
10. Social and Professional Issues
11. Web Systems and Technologies

BSIT Recommended Professional Electives

IPT102	Integrative Programming Technologies 2
PT101	Platform Technologies 3
WS101	Web Systems and Technologies
PF101	Object-Oriented Programming

CHED Memorandum in Order 25 Series of 2015

Graduates are able to help an organization determine how information and technology-enabled business processes can be used as strategic tool to achieve a competitive advantage. As a result, IS professionals require a sound understanding of organizational principles and practices so that they can serve as an effective bridge between the technical and management/users communities within an organization. This enables them to ensure that the organization has the information and the systems it needs to support its operations.

5.2.3 Bachelor of Science in Information Technology (BSIT)

The BS Information Technology program includes the study of the utilization of both hardware and software technologies involving planning, installing, customizing, operating, managing and administering, and maintaining information technology infrastructure that provides computing solutions to address the needs of an organization.

The program prepares graduates to address various user needs involving the selection, development, application, integration and management of computing technologies within an organization.

5.3 Program Goals

The BSCS, BSIS, and BSIT graduates are expected to become globally competent, innovative, and socially and ethically responsible computing professionals engaged in life-long learning endeavours. They are capable of contributing to the country's national development goals.

5.4 Specific Professions/careers/occupations for Graduates

A. Bachelor of Science in Computer Science (BSCS)

Primary Job Roles

- Software Engineer
- Systems Software Developer
- Research and Development computing professional
- Applications Software Developer
- Computer Programmer

Secondary Job Roles

- Systems Analyst
- Data Analyst
- Quality Assurance Specialist
- Software Support Specialist

B. Bachelor of Science in Information Systems (BSIS)

Primary Job Roles

- Organizational Process Analyst
- Data Analyst

Introduction

The requirements of CHED on Education programs shift to learning competency-based standards or outcomes based-education (OBE) in response to the 21th century skills development and K-12 curriculum demands. To certify that the objectives of the program are obtained, all faculty members have exerted incomparable efforts in the preparation of instructional materials that are OBE-compliant. Various teaching and learning methods and evaluation strategies are ensured to be practiced in lectures, group and individual reports, focus group discussions, oral and written exercises, seminars/webinars, demonstration teaching, field study, and practicum. Such measures and practices can make the students highly empowered and academically equipped which has a great influence in their everyday lives, competence, and holistic development as a professional.

OBE-compliant Teaching Plans and Materials

Ability to translate material into forms that is organized, comprehensible, appropriate, and interesting to students.

Description of Basic, Professional, and Elective IT Courses

Course Code	Course Title	Assigned Course Requirement	Accomplishment	
			Outputs	Outcomes
COMP 20013	Introduction to Computing	Exams, Quizzes, and Project	Simple google applications portfolio	Explain fundamental principles, concepts, and evolution of computing systems as they relate to different fields.
COMP 20023	Computer Programming 1	Exams, Quizzes, and Project	Main Menu Program	Demonstrate the simulation and analysis of programming properly with the accepted principles used in Array and differences of pre-defined and user defined functions and parameter passing.
COMP 20033	Computer Programming 2	Exams, Quizzes, and Project	Scientific programs	Define, construct, and use data structure composed of other data types, such as arrays of user-defined datatypes, in program.

Course Code	Course Title	Assigned Course Requirement	Accomplishment	
			Outputs	Outcomes
COMP 20043	Discrete Structures 1	Exams and Quizzes	Simulations	Demonstrate a working knowledge of set notation and elementary set theory, recognize the connection between set operations and logic, prove elementary results involving sets.
COMP 20103	Operating Systems	Exams, Quizzes, and Project	Application of different kinds of Operating System	Compare and contrast the algorithms used for processor scheduling, disk scheduling, and the different ways of allocating memory to tasks.
INTE 30013	Programming 3 (Structure Programming)	Exams, Quizzes, and Project	Developed Business Oriented Program	Acquire practical knowledge, skills and desirable attitudes, and values in reputable establishments/industries.
COMP 20173	Data Communications and Networking	Exams, Quizzes, and Project	Set up basic network connectivity between devices	Elaborate how standardization supports interoperable end-to-end communication.
COMP 20063	Data Structures and Algorithms	Exams, Quizzes, and Project	Developed programs applying the different abstract data types	Recognize common data structures and algorithms and apply concepts covered to new problem areas.
COMP 20193	Network Administration	Exams, Quizzes, and Project	Implemented VLANs and trunking in a switched network	Configure devices by using security best practices.
COMP 20143	Human Computer Interaction	Exams, Quizzes, and Project	Implemented a simple graphical user interface using the Java Swing toolkit	Describe and apply core theories, models, and methodologies from the field of HCI.
COMP 20203	Quantitative Methods with Modeling, and Simulation	Exams, Quizzes, and Project	Developed computer simulation models of various types	Apply critical thinking to the solution of complex problems.

Course Code	Course Title	Assigned Course Requirement	Accomplishment	
			Outputs	Outcomes
COMP 30023	Integrative Programming and Technologies 1	Exams, Quizzes, and Project	Developed a web-based commerce solution	Acquire practical knowledge, skills and desirable attitudes and values in reputable establishments/industries.
COMP 20083	Object Oriented Programming	Exams, Quizzes, and Project	Developed software using Java	Demonstrate the proper usage of methods, objects and classes, graphics interface and file handling.
COMP 20093	Information Management	Exams, Quizzes, and Project	Develop database application that will be relevant to society	Apply computing fundamentals and integrate them to database management solutions.
COMP 20163	Web Development	Exams, Quizzes, and Project	Developed web application	Apply a structured approach to identifying needs, interests, and functionality of a website.
INTE 30033	Systems Integration and Architecture 1	Exams, Quizzes, and Project	Designed and developed solutions that will cater to the needs of the organization	Design and develop solutions which are relevant to the changing needs of the stakeholder.
INTE 30043	Multimedia	Exams, Quizzes, and Project	Designed effective presentations and short film productions.	Introduce various tools for designing and developing Multimedia titles.
COMP 20213	Database Administration	Exams, Quizzes, and Project	Designed and developed applications that will benefit the community	Evaluate database needs of a group and formulate recommendations based on principles in database design.
COMP 20123	Fundamentals of Research	Exams, Quizzes, and Project	Comprehensive literature review by adopting the Association of Computing Machinery (ACM) Style Guide Format	Determine research suitable to information technology and/or computing by looking into research projects written by students from top universities and colleges, and high-quality research journals.
INTE 30063	Information Assurance and Security 1	Exams, Quizzes, and Project		

Course Code	Course Title	Assigned Course Requirement	Accomplishment	
			Outputs	Outcomes
COMP 20233	Technopreneurship	Exams, Quizzes, and Project	Developed Information Technology business plan	Explain the concepts of Technopreneurship, creativity and innovative mind in IT business.
COMP 20243	Systems Analysis and Design	Exams, Quizzes, and Project	Capstone Proposal	Describe Object Oriented Analysis and Design concepts and apply them to solve problems.
INTE-E2	IT Elective 2			
COMP 20133	Applications Development and Emerging Technologies	Exams, Quizzes, and Project	Developed an application which are relevant and which will have an impact to stakeholders	Evaluate Application for Business oriented programming scientific or mathematical programs using Java and formulate recommendations based on principles in business Information systems.
COMP 20333	Social and Professional Issues in IT	Exams, Quizzes, and Project		Familiarize students on the different IT professional ethics.
INTE 30073	Information Assurance and Security 2	Exams, Quizzes, and Project		
INTE 30083	Systems Administration and Maintenance	Exams, Quizzes, and Project	Administered desktop and server operating systems	Install, configure, and manage enterprise systems/networks, including hardware/software.
INTE-E3	IT Elective 3			
INTE-E4	IT Elective 4			
INTE 40016	Practicum	OJT station	OJT Portfolio	Propose an ethical and feasible computing solution to the identified problems in the project.

WURI GLOBAL INNOVATIVE UNIVERSITIES

A. Preparation of OBE-based syllabus with instructional materials in teaching handled courses

There is a clear articulation of how the programs develop the attributes/desired competencies of its ideal graduates. The articulation of the graduate attributes has been regarded with utmost importance to PUP Program offering. The Institutional Learning Outcomes are revised in 2018 and 2022 to translate the PUP Administration's vision and mission to the set clear directions to all programs and activities of the students and to keep abreast with the changing landscape in education and keep up with the industry demands. These graduate attributes are increasingly recognized by government industry, academe, and accrediting bodies as measures of effectiveness, responsiveness, and quality of education in higher education.

Curriculum Assessment

The clear definition of the PUP vision, mission, and goals are consulted, translated among the members of the University Curriculum Development Committee. A University Curriculum Committee is organized to lead all the faculty members and other stakeholders to fully understand how concerted efforts contribute to achieving the PUP vision, mission, and goals. Each program, and the people involved are engaged to clearly align program learning outcomes with the stated mission, vision, and goals.

The program's curriculum was developed based on the curricular development guidelines released by the Office of the Vice President for Academic Affairs. The revision was initiated by the Vice-President for Academic Affairs who headed the University Curriculum Evaluation Committee (UCEC), membered by the deans and chairpersons of the different colleges. A major revision in the Bachelor in Information Technology program was made to follow the CHED Memorandum Order No. 25 S of 2015 on Revised Policies, Standards and Guidelines for Bachelor of Science in Computer Science, Bachelor of Science in Information Systems and Bachelor of Science in Information Technology.

With these guidelines, the program's curriculum was revised last 2011 and again revised to cater the specialized skills not only in writing for the print medium but also other media platforms such as ICT. These suggested revisions were discussed with students, parents, alumni, faculty members, administrative, and the community. The Department also asked for dialogue with the industry where the program was related. Then, these revisions were presented to the Curriculum Planning and Development Office of the University composed of all deans, the Vice President for Academic Affairs, and the Chief Registrar. Thus, the approval of the curriculum was stipulated at the Board of Regents Resolution No. 781, series 2010.

The PUP Administration follows a consistent process in the curriculum revision in 2017 for the 2018 Curriculum Development/Revision. The contents of the curricular programs offered by the University are stringently monitored by the program chairs, deans of colleges, Vice President for Academic Affairs, and the Quality Assurance Center-Curriculum Planning and Development section for their continuous improvement set against the changing and developing educational landscapes in the national and international milieus. Improvements in the offering of degree programs are guided by national and international trends and policies, such as the Commission on Higher Education's (CHED) Memorandum Order 56 series of 2012 Policy-Standard to Enhance Quality Assurance (QA) in Philippine Higher Education. Through an Outcomes-Based QA, so that students are provided world-class and up-to-date education that they will be needing once they begin their professional lives beyond the University.

The latest improvement to the curricular programs offered by the University was implemented in 2017 in preparation for the first batch of K to 12 graduates who started their freshman year in the University in 2018. Guided by the policies and guidelines issued by CHED for each curricular program, results of benchmarking in the degree programs offered by local and foreign universities and feedback from stakeholders that include the students, their parents, alumni, industry partners, and professional organizations academic units under the colleges embarked on the arduous and critical task of preparing their programs for the changes in the educational landscape brought by the K to 12 Basic Education Program.

A. Rationale and Program Descriptions

Program Title: Bachelor of Science in Information Technology (BSIT)

Nature of the Proposal: Revision of Existing Curriculum

Rationale of the Revision:

With the shift of the Philippine Education System to K-12 and taking into account the latest development and technological trends in the field of computing, it is an anticipated opportunity to bring forth improvements in the curricular offerings of the Bachelor of Science in Computer Science (BSCS) and the Bachelor of Science in Information Technology (BSIT).

The Commission on Higher Education through the implementation of CMO 46 Series of 2012, realizes the shift to learning competency-based standards/outcomes-based education specifying the core competencies expected of graduates of BSCS and BSIT. As the field of computing is very dynamic, improvements in the curriculum must emphasize core principles and competencies that would enable graduates to adapt and learn skills in an increasing and developing technological and professional landscape.

With this, the CHED Memorandum Order 25 Series of 2015 or the Revised Policies, Standards, and Guidelines for Bachelor of Science in Computer Science (BSCS), Bachelor of Science in Information Systems (BSIS), and Bachelor of Science in Information Technology (BSIT) Programs is mandating colleges and universities offering the aforementioned programs to develop and craft a new curriculum that continues to be responsive to the current needs of the country and to be at par globally.

The College of Computer and Information Sciences (CCIS) is enjoining all of its stakeholders (faculty, students, staff, parents, industry partners, alumni, other educational and research institutions) to craft a learner-centered, outcomes-based curricula of the BSCS and BSIT programs to make its graduates globally competitive in the application of knowledge of computing to the discipline, utilization of modern techniques, skills, and tools in complex computing activities, and

integration of professional, ethical, and social responsibilities relevant to professional computing practice.

Program Description:

The Bachelor of Science in Information Technology (BSIT) program prepares students to become IT professionals with primary competencies in the areas of systems analysis and design, applications development, database administration, network administration, systems integration, implementation, and maintenance.

It likewise deals with the design and development of computer-based information systems for real-world business solutions. Graduates of BSIT are expected to become globally competent, innovative, and socially and ethically responsible computing professionals engaged in life-long learning endeavors capable of contributing to the country's national development goals.

Bachelor of Science in Information Technology Revision Approval 2022

PROGRAM TITLE	CMO #	EXISTING NO. OF UNITS	APPROVED TOTAL NO.OF UNITS	DIFFERENCE IN UNITS	APPROVAL DATE			
					CDC	CCEC	UCEC	EXECOM
Bachelor of Science in Information Technology (BSIT)	#25 series of 2015	167	167	0	May 20, 2022	May 24, 2023	June 13, 2022	August 1, 2022

Level 1: The CURRICULUM DEVELOPMENT COMMITTEE (CDC)

- The Curriculum Development Committee (CDC), formerly the Department Curriculum Evaluation Committee (DCEC) is composed of the department chairperson as the chair and selected faculty members of the department and at least one (1) faculty member from each branch or campus offering the same program.
- The CDC shall consult with experts in the discipline/s, practitioners from government, business, and industry; alumni, faculty, students, and other stakeholders who may help the committee design and develop the curriculum. All opportunities for discussion must be provided and consensus must be attained. The departments and/or colleges are encouraged to establish their Government-Industry-Academe Board for this purpose.
- The CDC must benchmark and compare the proposed curricular program or existing curricular program through a survey with CHED updated thrusts policies and standards; with an institution recognized as COE/COD; or other institutions with exemplary program, with PRC rules and policies for programs with licensure examination with the curricular standards of AACCUP, Inc.; and other recognized national and international accrediting bodies, and with the curricular guidelines of reputable national and international professional organization/s.

Level 2: The CURRICULUM EVALUATION COMMITTEE (CEC)

- The Curriculum Evaluation Committee (CEC), formerly the College Curriculum Evaluation Committee (CCEC) is chaired by the Dean with all the faculty members of the college, directors, OUS executive director, academic heads and faculty members of all branch/campus/unit teaching the same program. The CEC must review, deliberate and enhance the proposed curricula based on the vision and mission of the University, goals of the College and objectives of the program, taking into consideration the guidelines issued by the Office of the Vice President for Academic Affairs (OVPA), Quality Assurance Center (QAC) and the University Curriculum Evaluation Committee (UCEC).
- The CEC-approved proposed curricular program must be submitted by the CDC to the Quality Assurance Center to check the completeness and compliance of the proposal to the documentary requirement and university prescribed formal.

Level 3: The QUALITY ASSURANCE CENTER

- The proposed curricular program must be evaluated by the QAC as to completeness and compliance with the University curriculum development guidelines and format;
- The proposed curriculum must be endorsed by the QAC to the UCEC for deliberation and appropriate action;

A.2. ISO

PUP formally receives ISO attestation.

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies. The work of preparing international standards is normally carried out through ISO technical committees. The adoption of a quality management system for an organization can help to improve its overall performance and provide a sound basis for sustainable development initiatives.

The SOCOTEC Certification Philippines, Inc. formally awarded the Certificate of Attestation to the Polytechnic University of the Philippines for retaining the ISO 9001:2015 Certification, with Zero Non-Conformities, January 21, 2021.

SOCOTEC Certification Philippines, Inc. Business Development and Client Relations Officer Ms. Judy Pastrana handed the certification to PUP President Dr. Manuel M. Muhi and PUP Vice President for Research Extension and Development Dr. Anna Ruby P Gapasin, also the University's Quality Management Representative.

The attestation was awarded to the PUP after successfully completing the Virtual Surveillance Audit held on December 1 and 2, 2020.

Currently, the University is preparing for recertification of almost 200 processes, including services offered in branches and campuses.

ISO 9001: 2015 is one of the most recognized standards to assure products and service quality. It is awarded to organizations that showcase the ability to meet customer requirements and regulatory obligations through the development of consistent services.

On-the-Job Training (OJT)

2.1. Policies and Guidelines on the Deployment of Intern

During their fourth year, the BSIT students are presented with a one-semester On-the-Job Training to provide the necessary exposure to the industry. The application of the theories, concepts, principles, and methods learned from the academe is being practiced in the real work environment through the support of Cooperating Institutions or organizations.

Conduct of Extra Co-curricular Activities

Engaging in extra and co-curricular activities is an essential part of the holistic development of Bachelor of Science in Information Technology in PUP Sto. Tomas. These activities offer various opportunities for students to explore and develop their skills, interests, and potentials beyond the classroom setting. Conducting such activities improves academic performance, develops leadership and teamwork skills, and enhances creativity. and promotes social awareness and responsibility. These activities can also provide opportunities for students to explore their interests, passions, and potentials, and prepare them for the challenges and opportunities of the information technology profession.

Diverse Area of Specialization of Core Faculty

The role of diverse areas of specialization of core faculty members in Bachelor of Science in Information Technology is crucial in enhancing the quality of education, providing diverse perspectives, facilitating interdisciplinary learning, promoting research and scholarship, and preparing students for diverse career opportunities. These are significant in enhancing the quality of education, providing diverse perspectives, facilitating interdisciplinary learning, promoting research and scholarship, preparing students for diverse career opportunities, and creating a dynamic learning environment.

SYSTEMATIC AND EFFECTIVE PROCEDURE

QUALITY MANAGEMENT
SYSTEM IS CERTIFIED
ACCORDING TO ISO 9001

EDUCATIONAL ORGANIZATION
MANAGEMENT SYSTEM IS CERTIFIED
ACCORDING TO ISO 21001

Introduction

Polytechnic University of the Philippines Sto. Tomas Campus implements structured and systematic processes that support the effective achievement of its goals and the continuous improvement of its academic and administrative operations. These well-defined procedures ensure that teaching methodologies, curriculum development, and assessment practices align with recognized quality standards and best practices. Through efficient and methodical management approaches, the campus maintains smooth and responsive operations across all functional areas.

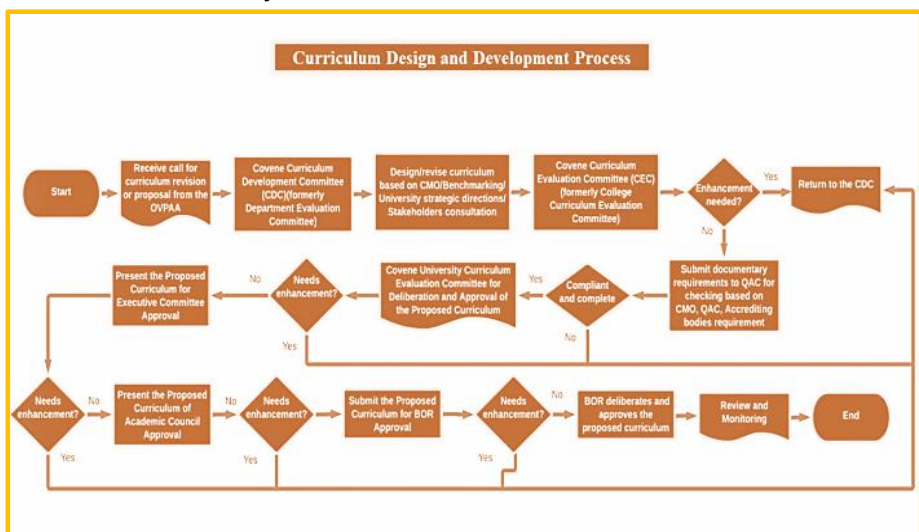

In support of its commitment to quality assurance and institutional excellence, the Academic Sector of the campus adheres to the standards of ISO 9001:2015 Quality Management System, with six (6) key processes officially enrolled in its Quality Management System (QMS).

These are the following:

1. Curriculum Design and Development

The BSIT curriculum of Polytechnic University of the Philippines Sto. Tomas Campus was developed in accordance with the curricular development guidelines issued by the Office of the Vice President for Academic Affairs and evaluated through the University Curriculum Evaluation Committee (UCEC). The curriculum revision was undertaken in response to the implementation of the K to 12 program and the updated policies and standards for Information Technology Education under Commission on Higher Education Memorandum Order No. 25, s. 2015.

To ensure relevance and responsiveness, the proposed revisions underwent consultations with key stakeholders, including students, parents, alumni, faculty members, administrative personnel, community representatives, and industry partners. Following a series of evaluations and presentations, the revised curriculum was endorsed for approval by the Executive Committee (EXECOM), Academic Council, and the PUP Board of Regents, ensuring its alignment with current educational standards and industry demands.

2. Syllabus /Course Guide Preparation

The process of syllabus development in Polytechnic University of the Philippines Sto. Tomas Campus begins with the Office of the Vice President for Academic Affairs (VPAA), which monitors and adopts the latest policies and guidelines issued by the Commission on Higher Education, particularly CHED Memorandum Order No. 25, s. 2015. Once updated directives on syllabus development or revision are released, the VPAA communicates these to the college deans, who then conduct meetings with department chairpersons to discuss the guidelines and necessary actions.

The chairpersons subsequently organize departmental meetings to form committees responsible for syllabus preparation and curriculum development. Specific tasks are assigned to committee members, who then gather relevant reference materials and conduct consultations to ensure alignment with institutional and CHED standards. Faculty members prepare the course syllabi based on the prescribed guidelines and submit draft copies to the chairpersons for initial review before presentation to the committee.

The committee evaluates the proposed syllabus for approval. If revisions are needed, the document is returned to the assigned faculty member for improvement. Once approved, the syllabus is endorsed to the dean and subsequently forwarded to the VPAA for final review and approval, ensuring quality, consistency, and alignment with program outcomes and academic standards.

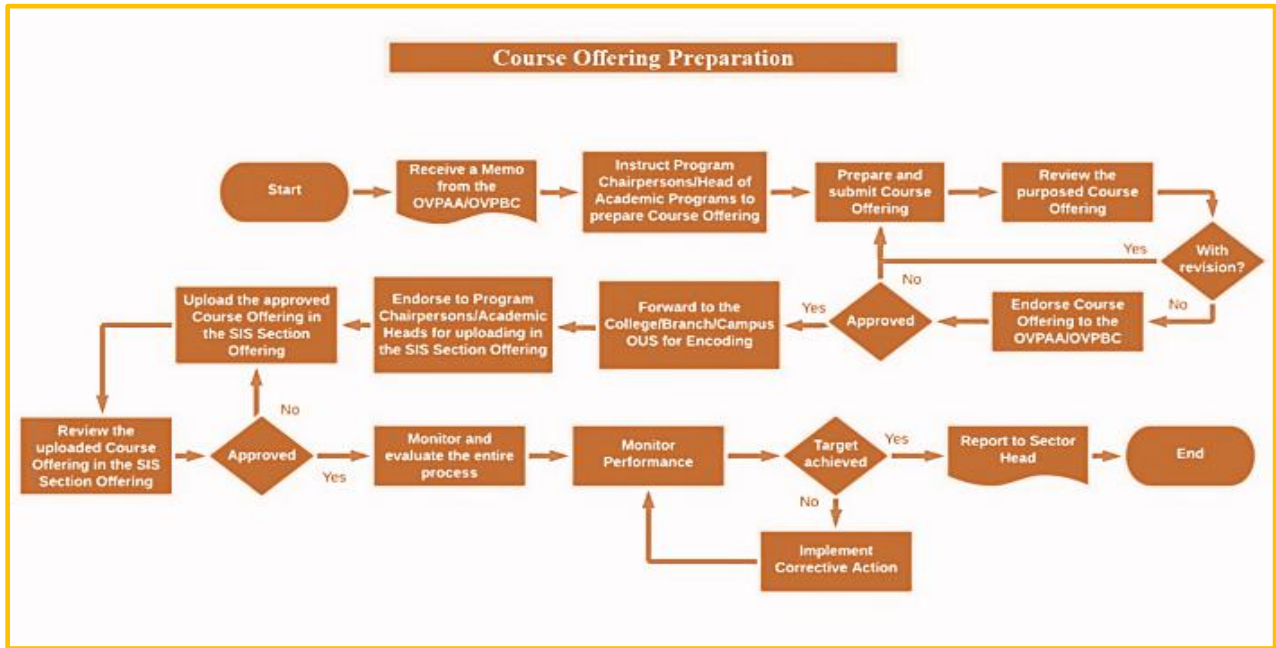

Process Manual on Syllabus /Course Guide Preparation

2. Course Offering Preparation

The course offering process in Polytechnic University of the Philippines Sto. Tomas Campus begins with the issuance of a memorandum from the Office of the Vice President for Academic Affairs (OVPA) or the Office of the Vice President for Branches and Satellite Campuses (OVPBSC). This serves as the basis for the preparation, revision, and approval of course offerings for the academic term.

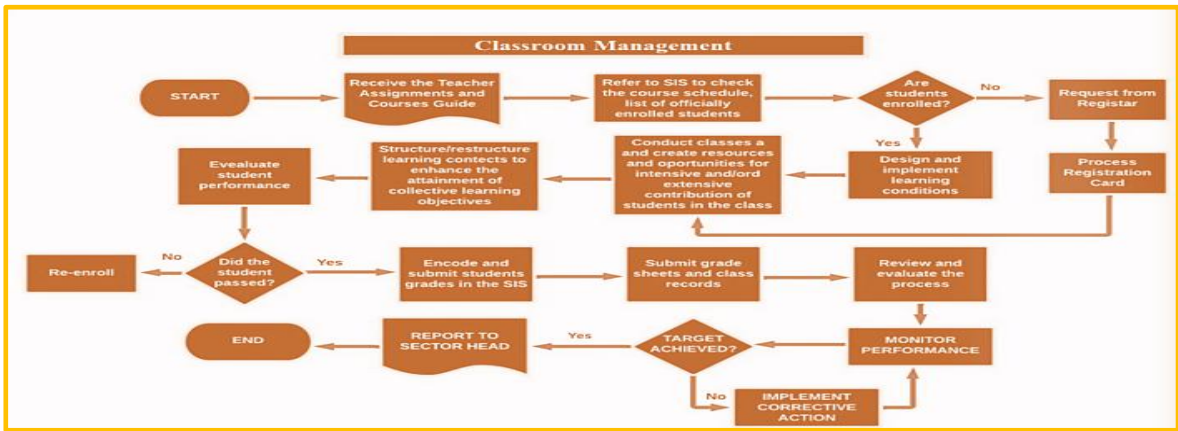

The process involves careful evaluation and coordination to ensure that all offered courses align with curricular requirements and institutional policies. It also utilizes both internally generated and externally sourced documents maintained in hard copy and electronic formats to support efficient documentation, monitoring, and approval procedures.

Copy of Teaching Assignments

3. Classroom Management

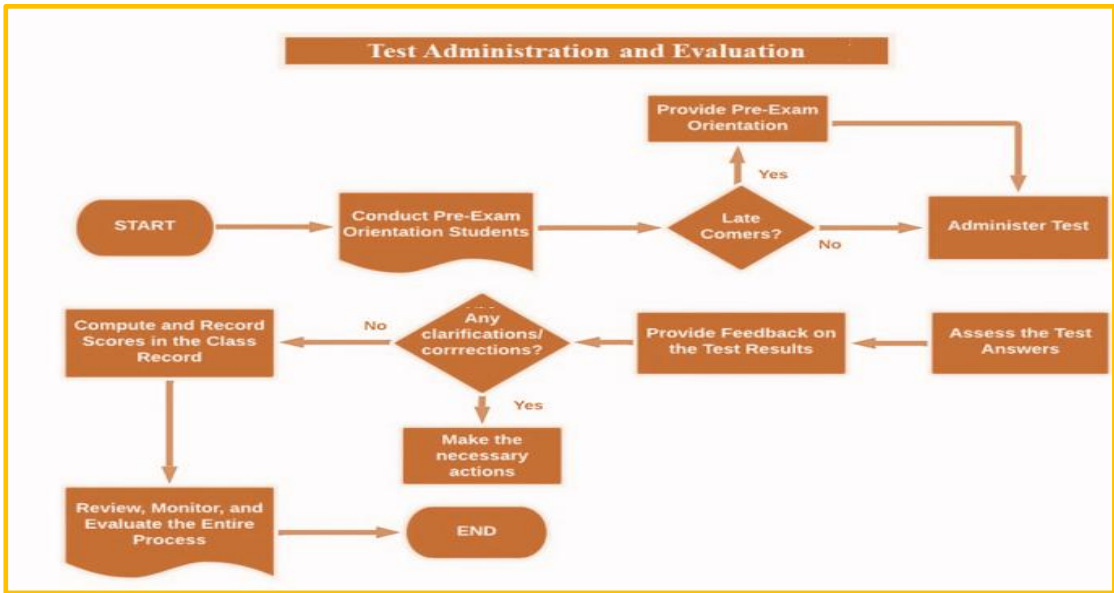

This process begins with the allocation of classrooms to program course offerings by the Chairperson, followed by the assignment of faculty teaching loads and the scheduling of students according to the day, time, year level, and section. The process ensures the organized and efficient implementation of academic activities and concludes with the submission of class records and grade sheets to the Dean's Office and/or the Chairperson's Office for proper documentation and monitoring.

Process Manual on Classroom Management

4. Test Administration and Evaluation

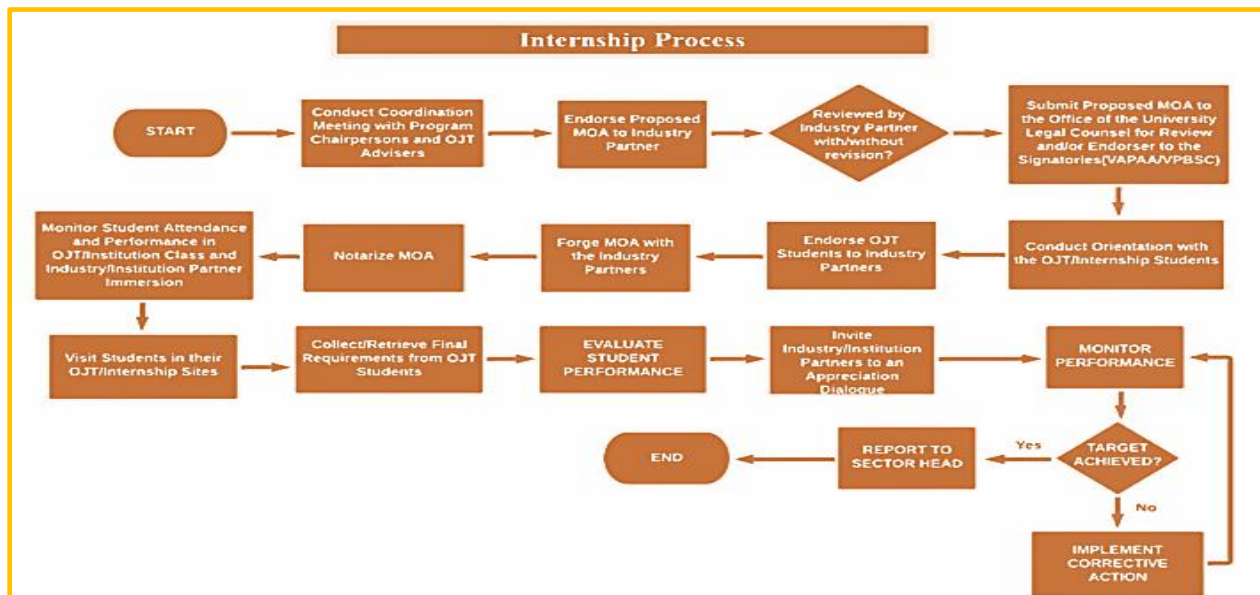

Test administration and evaluation are essential components of the educational process as they enable teachers and administrators to measure student learning and make informed academic decisions. Through the standardized and consistent administration of assessments, all students are provided with equal opportunities to demonstrate their knowledge, skills, and competencies. This systematic approach helps ensure the fairness, reliability, and accuracy of test results while supporting effective instruction and continuous academic improvement.

Process Manual on Test Administration and Evaluation

5. Internship Process

This process begins with the orientation conducted by the internship adviser regarding the policies, guidelines, and requirements outlined in the internship manual. It concludes with the submission of the required documents by the interns to their adviser as proof of the successful completion of the internship program. This process is implemented across all colleges, the Open University System, branches, and campuses of Polytechnic University of the Philippines.

A. Face to Face and Flexible & Alternative Modes of Teaching and Learning

Prior to the pandemic, instruction was primarily delivered through face-to-face learning, supported by qualified and competent faculty members who ensured the delivery of quality education and responsiveness to students' needs. With the shift brought about by the pandemic, the BSIT program successfully transitioned to online and flexible learning modalities while maintaining the same standard of academic excellence. The program remained adaptive and well-prepared to effectively deliver instruction in both virtual and face-to-face learning environments.

During the Pandemic

In response to COVID-19 Advisory No. 6 and other government directives on community quarantine issued by the Commission on Higher Education during the pandemic, Polytechnic University of the Philippines Sto. Tomas Campus adopted flexible learning modalities to ensure the continuity of quality education while prioritizing the health and safety of students and employees. Guided by CHED Memorandum Order No. 4, s. 2020, or the "Guidelines on the Implementation of Flexible Learning," the university implemented the FlexTel Program through online learning systems in synchronous and asynchronous modes, as well as modular or correspondence-based instruction.

To support the transition, surveys were conducted to determine the preferred learning modalities of students across branches and campuses. The BSIT program complied with these guidelines by utilizing digital and non-digital learning platforms, flexible schedules, accessible learning materials, and innovative assessment methods to ensure the attainment of intended learning outcomes during the shift from face-to-face to flexible learning.

Copy of Flextel Memo

During National Energy Emergency and Extreme Heat Index

In response to CHED Advisory on the implementation of flexible learning during national energy emergency due to the war in Middle East, PUP adopted the blended mode of teaching and learning. OVPAA issued a memo related to this to provide schedule of online classes particularly to General Education courses.

Memo No. 007 Series 2026

REPUBLIC OF THE PHILIPPINES
POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
OFFICE OF THE VICE PRESIDENT FOR ACADEMIC AFFAIRS

OVPAA MEMORANDUM
No.7, Series of 2026

Date : **April 14, 2026**

To : **Deans, Associate Deans, Campus Directors, OUS Executive Director, IODS Director, Academic Heads, Chairpersons, LHS Principal, Faculty Members**

Subject : **PUP Teaching and Learning Modality During the National Energy Emergency**

In response to CHED Advisory on the implementation of flexible learning during the energy emergency, PUP shall continue adopting blended mode of teaching and learning.

Classes for General Education courses shall be conducted mostly online, with the following minimum in-person meeting requirements:

Class Duration	Minimum In-Person Meetings/Semester
1.0 Hour / session	12 Meetings
1.5 Hours / session	8 Meetings
3.0 Hours / session	4 Meetings
4.5 Hours / session	3 Meetings
9.0 Hours / session	2 meetings

Chairpersons shall submit to the OVPAA schedule of online and in-person classes for these GE courses. Approved schedule shall be distributed to all concerned faculty members for implementation.

On the other hand, to not compromise learning outcomes, major/board/laboratory and other skills-based courses, including PATHFIT, shall be conducted in-person (except those scheduled every Monday, in compliance with PUP's work-from-home arrangements).

Further, be reminded that midterm and final written examinations, as well as undergraduate thesis defense shall be held in-person.

This memorandum remains in effect until the end of academic year 2025-2026, inclusive of midyear (summer) term. Another memorandum shall be issued before the start of academic year 2026-2027.

Finally, classes in the Open University System are not covered by the rules stipulated in this memorandum as they shall proceed with pure online mode.

Please be guided accordingly.

Emanuel C. De Guzman, PhD
Vice President

A LEADING COMPREHENSIVE
POLYTECHNIC UNIVERSITY IN ASIA

Likewise, Executive Order No. 12, s. 2025 was implemented in response to the effects of extreme heat conditions. The order established institutional guidelines for the temporary shift of learning modalities whenever the heat index reached 42°C and above, classified by Philippine Atmospheric, Geophysical and Astronomical Services Administration as the “Danger Level.” Under this policy, classes across all campuses and academic levels may transition to online learning to safeguard the health, safety, and well-being of both students and faculty members.

Republic of the Philippines
POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
OFFICE OF THE PRESIDENT

EXECUTIVE ORDER
No. 12, Series of 2025

TO : ALL CONCERNED

SUBJECT : INTERNAL RULES ON SHIFTING OF LEARNING MODALITY DURING EXTREME HEAT

DATE : March 17, 2025

I. BACKGROUND AND PURPOSE

The Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA) classifies a heat index of 42 degrees Celsius to 51 degrees Celsius as “Danger,” which can result in heat cramps and heat exhaustion, with affected individuals experiencing symptoms such as fatigue, dizziness, headaches, and vomiting.

This extreme heat condition poses serious health risks to students and faculty, necessitating proactive measures to ensure their safety and well-being. In response, the University establishes this policy to safeguard its academic community and provide clear guidelines for class arrangements during such conditions.

II. AUTOMATIC SHIFT TO ONLINE SYNCHRONOUS CLASSES

When the heat index reaches the “Danger” level as classified by PAGASA, classes in all levels across all campuses may shift to Online Synchronous mode unless a different pronouncement is made by the Local Government Unit (LGU) or the National Government.

III. EFFECTIVITY

These guidelines shall take effect immediately and shall remain in force unless revoked, cancelled or superseded by a subsequent issuance.

(Sgd.) **MANUEL M. MUHI, D.Tech, ASEAN Engr.**
University President

B. Delivered by Competent Faculty Members

High-quality instruction is delivered through purposeful and effective teaching that promotes solid knowledge acquisition, deeper understanding, and the development of students’ full potential. To ensure the consistent delivery of quality education, the institution is supported by a pool of competent and highly qualified instructors whose academic credentials, professional expertise, and commitment to excellence foster student growth, learning, and preparedness for future professional endeavours.

Below is the educational background of the faculty members of BSIT program:

Faculty Educational Background

The BSIT Faculty Members and their Educational Background

Name of Core Faculty Member	Academic Rank / Employment Status	Degree Earned	Institution	Year Obtained
 Bolambot, Elaine	Instructor I / Permanent	BS Computer Science	Faith Colleges	2005

C. Faculty Support and Development

Faculty members are considered the cornerstone of any educational institution as they play a vital role in delivering quality education and shaping student learning. In response to the rapid advancement of technology and the evolving landscape of higher education, continuous professional development through trainings, seminars, webinars, and workshops has been prioritized to enhance teaching competencies and instructional practices.

Presented below are the trainings, seminars, and workshops attended by the faculty members as part of their ongoing professional development and commitment to academic excellence.

D. Teaching Methods and Strategies

Various learner-centred teaching strategies and approaches are practiced and executed for the different developmental aspects of the students. With this, learning is enhanced since the students are actively involved in the learning process. Also, it can provide faculty with supplementary information and helpful techniques for using cooperative learning or collaborative learning in classrooms. These include lecture sessions, hands-on activities, individual and group consultations, small group activities, presentations, and others.

D.1 Symposia, Seminars, Workshops, Professional Lectures

To continuously improve the quality of instruction, the faculty members participate in various symposia, seminars, workshops and professional lectures aligned with the development of the curriculum, improvement of teaching strategies and the program itself.

D2. Instructional Materials

Effective and carefully written instructional materials are secured by the College of Science that are readily available and conveniently accessible to students. PUP is known as an institution that is committed to honing the full potential of the students which results in exemplary performance. The university prioritizes the establishment of instructional manual development and evaluation committees to guide faculty members in the development of effective and efficient instructional materials and ensure quality assessment

D.2.2 Learning Management System

PUP Learning Management System (LMS) also known as the eMabini Learning Portal was implemented since 2015 even before the pandemic. It has become a critical tool and a driving force in PUP Open University System online learning and now being institutionalize across the university to achieve more access and equity, responsiveness, and effective strategies to utilize advance technology in education.

Sample LMS

The screenshot shows the PUP LMS interface. The top navigation bar includes 'Home', 'Dashboard', 'My courses', 'Site administration', and 'Video Tutorial'. The left sidebar lists various course materials. The main content area is titled 'Drawing System Architecture Diagrams' and includes a description of system architecture diagrams, a list of reasons to use diagrams, basic elements, an online tool link, and conventions for drawing diagrams.

The screenshot shows the PUP LMS interface for an assignment titled 'System Architecture Visualization'. The top navigation bar includes 'Home', 'Dashboard', 'My courses', 'Site administration', and 'Video Tutorial'. The left sidebar lists various course materials. The main content area displays the assignment details, including the opening and due dates, a 'View all submissions' button, and a 'Grading summary' table.

Given this, the Commission on Higher Education released an advisory through CHED Memorandum Order No. 4, series of 2020 “Guidelines on the Implementation of Flexible Learning” which was the basis of the University FlexTel program. Guided by this memorandum, the Polytechnic University of the Philippines through the Office of the Vice President for Academic Affairs implements the Online Learning System (Synchronous and Asynchronous mode) and modular (correspondence mode).

MS Teams, Zoom, Google Meet, Schoology and other online platforms are also utilized by faculty, students, staff, and administration use for creating, delivering, tracking, and reporting educational courses and outcomes. It supports the FlexTel program of the University. Utilization of various learning platforms is highly applied, especially during the online learning mode.

Synchronous Mode

Furthermore, faculty members were required to submit Weekly Monitoring Reports on the online classes they conducted as part of the institution’s commitment to ensuring the continuity and effectiveness of instruction. These reports served as monitoring and documentation tools to track class delivery, student participation, learning activities, and instructional concerns encountered during the implementation of online learning. The submission of these reports also enabled the administration to assess the progress of academic delivery and ensure that learning outcomes continued to be achieved despite disruptions caused by unfavorable weather conditions and other emergencies.

STO. TOMAS CAMPUS

OFFICE MEMORANDUM NO. 13, S. 2026

TO: ALL CONCERNED FACULTY MEMBERS

SUBJECT: SUBMISSION OF WEEKLY CLASS MONITORING FORM

DATE: MARCH 13, 2026

Please be advised that effective March 16, 2026, all Faculty Members with scheduled Monday class are required to submit the **Weekly Class Monitoring Form** to comply with OVPAA Memorandum No. 5 Series of 2026 issued March 11, 2026 relative to Executive Order No. 5 Series of 2026: Internal Guidelines on the Implementation of Memorandum Circular No. 114 Series of 2026 specifically Item f, Section II of the said Executive Order.

All concerned Faculty Members are expected to submit the Weekly Class Monitoring Form on a weekly basis not later than Wednesday of the current week, i.e. for Monday Classes conducted on March 16, 2026, submission of Weekly Class Monitoring Form must be done not later than March 18, 2026.

Kindly see attached files:

1. Executive Order No. 5 Series of 2026; : Internal Guidelines on the Implementation of Memorandum Circular No. 114 Series of 2026
2. OVPAA Memorandum Order No. 5 Series of 2026: Implementing Guidelines on Item F, Section II of EO No. 5 Series of 2026
3. Weekly Class Monitoring Form

We will appreciate receiving your Weekly Class Monitoring Form through our e-mail, acadoffice_pupstomas@pup.edu.ph.

Thank you very much for your usual cooperation and support.

Instrument for Faculty Evaluation

Student Evaluation of Teachers (SET)		
Rating Scale		
Scale	Qualitative Description	Operational Definition
5	Always manifested	Evident in nearly all relevant situations (91–100% of instances).
4	Often manifested	Evident most of the time, with occasional lapses (61–90%).
3	Sometimes manifested	Evident about half the time (31–60%).
2	Seldom manifested	Infrequently demonstrated; rarely evident in relevant situations (11–30%).
1	Never/Rarely manifested	Seldom demonstrated; almost never evident, with only isolated cases (0–10%).

Benchmark Statements for Faculty Teaching Effectiveness
A. Management of Teaching and Learning
1. Comes to class on time.
2. Submits updated syllabus, grade sheets, and other required reports on time.
3. Maximizes the allocated time/learning hours effectively.
4. Provide appropriate learning activities that facilitate critical thinking and creativity of students.
5. Guides students to learn on their own, reflect on new ideas and experiences, and make decisions in accomplishing given tasks.
6. Communicates constructive feedback to students for their academic growth.
B. Content Knowledge, Pedagogy and Technology
7. Demonstrates extensive and broad knowledge of the subject/course.
8. Simplifies complex ideas in the lesson for ease of understanding.
9. Integrates contemporary issues and developments in the discipline and/or daily life activities in the syllabus.
10. Promotes active learning and student engagement by using appropriate teaching and learning resources including ICT tools and platforms.
11. Uses appropriate assessments (projects, exams, quizzes, assignments, etc.) aligned with the learning outcomes.
C. Commitment and Transparency
12. Recognizes and values the unique diversity and individual differences among students.
13. Assists students with their learning challenges during consultation hours.
14. Provides immediate feedback on student outputs and performance.
15. Provides transparent and clear criteria in rating student's performance.
Note: Average Rating for reference only.

REASONABLE BUDGET

Introduction

The University's budget is primarily sourced from the General Appropriations Act (GAA) through the Department of Budget and Management (DBM), supplemented by income generated by the University. The preparation and submission of budget proposals follow established institutional guidelines and procedures to ensure that resource allocation supports the University's vision, mission, strategic priorities, and commitment to fiscal responsibility. Colleges and academic units are required to align their budget proposals with institutional goals, policy directions, and development plans while promoting operational efficiency and the prudent use of resources.

Budget proposals cover expenditures for Personal Services, Maintenance and Other Operating Expenses (MOOE), and Capital Outlay under both the Special Trust Fund and Fiduciary Fund. Units generating income from fiduciary fees are likewise required to submit their budget proposals together with their Annual Procurement Plan (APP). In adherence to the University's procurement policies, the principle of "No APP, No Procurement" is strictly observed, ensuring that expenditures are properly planned and prioritized.

Certain funds, such as the Higher Education Modernization Fee (HEMF), are earmarked for infrastructure development and loan amortization, while security fees and other fiduciary funds are centrally managed by the University. Laboratory fees are allocated based on academic priorities and subject to the approval of the Vice President for Academic Affairs. Budget allocations for centrally managed funds are prepared and monitored by the Budget Office to ensure transparency, accountability, and effective utilization.

The University also carefully considers the availability of financial, human, and physical resources when offering new academic programs, ensuring that enrollment capacities are supported by adequate faculty, facilities, and learning resources. In line with its commitment to lifelong learning and continuous improvement, dedicated funding is allocated for the professional development of faculty members and staff. These training programs are aligned with the policies of the Commission on Higher Education, as well as the University's vision, mission, and goals, enabling personnel to remain updated with emerging trends, innovations, and best practices in their respective disciplines and fields of expertise.

Executive Order for Submission of Budget Proposals

Republic of the Philippines
POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
OFFICE OF THE PRESIDENT

EXECUTIVE ORDER
No. 24, series of 2025

TO : ALL CONCERNED

SUBJECT : SUBMISSION OF BUDGET PROPOSALS FOR FY 2026
PROGRAM OF RECEIPTS AND EXPENDITURES (PRE)

DATE : July 1, 2025

I. RATIONALE

- 1.1 Using the development agenda outlined in the **University Development Plan (UDP) 2024-2028** as the primary takeoff point, the University will continue to foster sound economic decisions and strategies to fulfill the current administration's plans, policies, and directions.
- 1.2 The **FY 2026 PRE** aims to:
- provide continuous funding for ongoing/existing programs/activities/projects;
 - (support equipment, machinery, and infrastructure investments given their multiplier effect over the years;
 - adapt with the emerging global trends on academic excellence and digital transformation, thereby fostering bureaucratic efficiency as well as effective and transparent service delivery; and
 - harmonize linkages across all sectors, striking a balance on the budgetary needs of all the campuses of the University.
- 1.3 Fully aware of the impact of the limited allocation in the FY 2026 National Expenditure Program (NEP) and the competing demands of the different units, the allocation of the FY 2026 PRE budget will be optimized. As part of the evaluation process, the management will consider how the units utilized their previous year's budget and the implementation progress of their mandated programs and projects to ensure that only implementation-ready proposals are included in the budget. This means that the units **must provide the related justification for the request**, together with the following relevant supporting documents per category:

2ND floor South Wing PUP A, Mabini Campus Anonas Street, Sta. Mesa, Manila

Category	Supporting documents
Items that will undergo procurement	• Market Survey of three (3) suppliers or • Certificate of Exclusivity from the supplier to confirm that no other local suppliers are authorized to offer or distribute the specified goods, and Certification from the Head of Unit stating that a Market Survey was conducted • Project Procurement Management Plan (PPMP) • In case of replacement of an existing item, a report from PSMO evidencing such
ICT-related items	• Proof of inclusion in the ISSP 2026 <i>(screenshot from the FY 2026 ISSP lodged in the BSO Gdrive for your sector)</i>
Infrastructure	• Conceptual design from PPDO • Budgetary cost estimate from PPDO • In case that the conceptual design and budgetary cost estimate is from a reputable consultant, a certification from the PPDO that the same has been duly evaluated
Hiring of Personnel (Job Order, Contract of Service or Consultant)	• Job description of prospective applicant and corresponding comparable position, salary grade, and duration • HRMD evaluation of the qualifications of the prospective applicant
Research Program	• Research proposals approved by the University Research Review Committee (URRC) • Project timeline and corresponding budgetary requirements per month
Extension Program	• Extension proposals approved by the Extension Project Proposal Evaluation Committee (EPPEC) • Project timeline and corresponding budgetary requirements per month

II. EXPENDITURE MANAGEMENT FRAMEWORK

2.1 The FY 2026 PRE budget proposal shall incorporate the following:

2.1.1 Priorities and policy directions in support of and consistent with the **University Development Plan (UDP) 2024-2028**. The UDP is a 5-year strategic plan designed to guide the University in fulfilling its mandate under Republic Act No. 8292, steering towards its vision to become a **leading comprehensive polytechnic university in Asia**. It is a collective representation of the shared goals of the university and sets the direction for what it strives to achieve in the future.

“THE COUNTRY’S 1ST POLYTECHNIC U”

The following are the Fiscal Year 2026 PUP Budget Priorities:

Pillar	Budget Priorities	Key Initiatives
Teaching and Learning	• Modernize learning facilities: Enhance classrooms, laboratories, and libraries by integrating advanced technology, high-speed connectivity, software subscriptions, and updated library collections • Faculty upskilling: Fund masteral and doctoral scholarships, industry immersion, and training on emerging educational technologies (e.g., AI, LMS). • Student employability and mobility: Expand internship partnerships, licensure exam review programs, and international student exchange initiatives • Faculty mobility: Fund local and international training, conferences, academic exchanges, and collaborative research to strengthen professional development and global engagement • Curriculum innovation: Support micro-credentialing, industry-aligned programs (via GIAB), and local and international accreditation (e.g., COPC, COD/COE, AUN-QA, ABET, WURI, THE, and QS World University Rankings)	• TATAK PUP: Seal of Academic Program Excellence • UPHOLD E2E Program: Upscaling Holistic Development from Enrollment to Employment • ENRICH Program: Enriching Novel Approaches for Responsive Instruction and Continuing Holistic Development
Research and Extension	• Research production: Grants for GEDSI-focused, technology-based, and climate-resilient research • IP commercialization: Fund patents, startups, and incubators • Extension programs: Skill demand-driven projects • Partnerships: Expand MOUs with industry, LGUs, and international HEIs for collaborative R&D	• SALIKSIK-E Program: Skills Advancement and Learning Initiatives for Knowledge Synthesis, Innovation, and Knowledge Expansion • Innovate 360° • Galing Pambansang Sinta (GPS): Roadmap in Democratizing Human-centered AI Development for the National Polytechnic AI-Powered Research University • Integrative Research Capacity-Production Program (IRCP) • SalikSinta: SALiksik

“THE COUNTRY’S 1st POLYTECHNIC U”

		para sa Kaunlarang Likas-Kaya ng SINTAng Paaralan • UTAK: Utilization of Technology and Knowledge • MOVING MINDS ON THE MOVE: A Caravan on Publishing in PUP University Journals • Salin Kaalaman Tungo sa Kaunlaran (SKTK) and Lingap Komunidad (Outreach Activities and Technical Advisory) • Extension Capability Building Program (ECBP)
Internal Governance	• Enhanced Institutional Image: Sustain existing and achieve new institutional awards and recognition, both local and International • Digitalization: Invest in ICT infrastructure and systems • Green campuses: Fund renewable energy (solar panels), waste management, and disaster-resilient infrastructure • Operational efficiency: Digitize HR, procurement, finance, and student services • Inclusivity: Develop and upgrade inclusive, disability-friendly facilities and gender-sensitive spaces, incorporating assistive technologies to support individuals with diverse needs	• INSPIRED: Integrity Development Program • SPACE: Sinta's Program for Attaining Culture of Excellence • KABAN: Kaakibat sa mga Adhikain ang BAdyet na Nilalaan • Level Up! A Strategic Initiative towards the Seal of Excellence • EXCEL: EXCELlent Client Satisfaction Program

2.2 Given fiscal constraints, new budget proposals will be evaluated based on:

- **Alignment with PUP's Strategic Pillars**
- **Implementation-readiness**
- **Absorptive capacity of operating units**
- **Available fiscal space**
- **Prioritization of high-impact initiatives**

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
OFFICE OF THE PRESIDENT

- 2.3 The University will continue the adoption of the following administrative reforms of the national government for greater budget transparency, openness, accountability, and reliability:
- 2.3.1 Unified Accounts Code Structure (UACS);
 - 2.3.2 Disaggregation of lump-sum amounts within the agency-specific budgets to reflect the P/A/Ps and implementing units;
 - 2.3.3 Cash Budgeting System (CBS) under EO No. 91, s. 2019, which emphasizes funding of implementation-ready P/A/Ps that can be completed within the fiscal year;
 - 2.3.4 A well-functioning, results-based, and credible monitoring and evaluation system that will provide evidence-based information; and
 - 2.3.5 Open Government Partnership (OGP) to strengthen the participation of civil society organizations (CSOs) and to ensure the sustainability of budget and governance reforms
- 2.4 As part of efforts to improve fiscal policy and promote the efficient use of public resources, **all unimplemented programs, activities, and projects chargeable against the Internally Generated Fund (IGF) from Fiscal Years 2024 and earlier, explicitly referring to no estimated utilization or physical progress as of June 30, 2025, shall be reverted to BSO-Managed funds for reprogramming.** This measure aims to prevent the accumulation of idle or misallocated funds and to ensure that government spending is aligned with current priorities, deliverable outcomes, and actual implementation capacity.

As an exception to this policy, infrastructure projects with ongoing procurement activities or those with duly approved implementation schedules extending beyond July 15, 2025, may be exempted from reversion, provided that sufficient justification is submitted and approved by the concerned unit. This includes projects with multi-year implementation timelines, compliance with regulatory clearances, or those affected by force majeure or circumstances beyond the control of the implementing unit.

III. GENERAL SUBMISSION REQUIREMENTS

- 3.1 All budget proposals shall be accomplished in a manner consistent with the detailed instructions in **Annex A**.
- 3.2 The required submission modality shall be via the BSO Dashboard, which may be accessed through this link **beginning July 8, 2025**: <https://sites.google.com/view/pupbudgetservicesoffice/home> or at QR code:

2ND floor South Wing PUP A, Mabini Campus Anonas Street, Sta. Mesa, Manila

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
OFFICE OF THE PRESIDENT

Under the Budget Cycle tab, the Budget Preparation FY 2026 PRE (Expenditures) module is available, where the entries shall be encoded by at most two (2) representatives per unit. For uniformity purposes, those who were previously granted access to the platform as per this link: <https://tinyurl.com/w5d65csv> shall be updated, and any changes therein shall be made via the official email of the unit to be sent to budget@pup.edu.ph.

- 3.3 The entries in the BSO Dashboard of each unit shall be reviewed by the Unit Head and Sector Vice President, who have automatic access to the units under his/her coverage.
- 3.4 Strict adherence to the timelines specified in this EO, as per Annex B, as well as the rules during the budget deliberation listed under Annex C, should be observed.

IV. EFFECTIVITY

This Order shall take effect immediately and remain in force unless revoked, cancelled, or superseded by a subsequent issuance.

(Sgd.) **MANUEL M. MUHI, DTech, ASEAN Engr.**

BUDGET SERVICES OFFICE DASHBOARD

budget@pup.edu.ph

The figure shows the allocation of each faculty member for Faculty Development amounting to P20,000 per year. This fund can be used by faculty to attend training, seminar, conferences or any faculty development activities.

The figure shows the fund allocation for extension and outreach projects of the campus as well as the cultural and nstp related activities.

The figures above show the budget appropriation, allocation and utilizations for PUP Sto. Tomas as per the Budget Services Office Dashboard. As of April 2026, only 2.54% of the budget allocation were utilized since most of the activities of the branch are on-going and mostly scheduled in the second to third quarter of the year.

The Polytechnic University of the Philippines upholds its mission to create an environment of knowledge and technology. It aims to attain financial resource viability to meet educational development investment requirements. In line with these, the administration undergoes careful planning and execution to provide for the appropriate supplies and materials of all units and offices. The Project Procurement Management Plan (PPMP) serves as a guide document in the procurement and contract implementation process, as well as a vital reference in procurement monitoring. It also serves as an important tool in resource and financial management to optimize the utilization of scarce resources. To equip its students with world-class competencies in technological areas through effective, efficient instruction and research, the campus carries out its programs and plans through the PPMP. Improved service quality is manifested with the purchase of various office supplies, materials, equipment, furniture and fixtures. Improved infrastructure and facilities is also a method of creating a conducive learning atmosphere.

Supply and Delivery Material

The campus ensures the timely procurement and delivery of supplies and materials to support the instructional activities of the BSIT program. Requisition and Issue Slips are prepared and processed by the designated offices to properly document all requests for office supplies, laboratory consumables, and instructional equipment. These documents serve as evidence of the campus's commitment to maintaining adequately stocked resources in support of its academic programs.

Laboratory Rooms and Learning Resources

PUP Sto. Tomas Campus has two computer laboratories dedicated to the BSIT program, both situated on the second floor of the Main Building. These laboratories provide students with access to the hardware and software resources needed for their coursework and hands-on technical training. Both laboratories are equipped with desktop computers donated by the PUP Main Campus in Sta. Mesa, ensuring that students have reliable computing equipment throughout their studies.

Computer Laboratory 1

Computer Laboratory 1 is located at the Main Building, 2nd Floor. It houses 19 desktop computers provided by the PUP Main Campus in Sta. Mesa. The laboratory uses a wireless internet connection through a TP-Link router shared with Computer Laboratory 2. The PCs in this laboratory connect to the internet via the TP-Link_5EC4 (2.4 GHz) or TP-Link_5EC4_5G (5 GHz) wireless network, which is exclusively for comlab use. The laboratory is also equipped with a television set donated by the PUP Main Campus in Sta. Mesa, used for instruction and presentations.

Computer Laboratory 2

Computer Laboratory 2 is located beside Computer Laboratory 1 on the second floor of the Main Building. It houses 27 desktop computers donated by Mr. Sherwin Magsino, a distinguished alumnus of the institution. Unlike Computer Laboratory 1, the computers in this laboratory are connected through a wired network using Ethernet cables linked to a 24-Port Switch, ensuring a more stable and reliable internet connection for laboratory activities and other computing requirements. A television set is also installed in the laboratory, donated by the graduating batch of 2026, which serves as an additional display for instructional purposes, presentations, and other academic activities.

Internet Connection

The internet connection serving both Computer Laboratories is provided through a single TP-Link router dedicated solely for comlab purposes. The available networks are TP-Link_5EC4 for the 2.4 GHz band and TP-Link_5EC4_5G for the 5 GHz band. Computer Laboratory 1 connects through the wireless network, while Computer Laboratory 2 uses a wired connection via Ethernet cables to a 24-Port Switch for improved reliability. The internet service is exclusively allocated for laboratory use, ensuring uninterrupted connectivity for student activities and coursework.

Library

The PUP Sto. Tomas Campus library is located on the 2nd Floor of the Cultural Building. It is headed by Mr. Efren Martin, the campus librarian, who manages the library’s resources and day-to-day operations. Students are required to log their entry through a computer terminal at the library entrance, where they fill out their information before gaining access. This system ensures proper monitoring and documentation of library use. The library also offers an e-library system where students may borrow books digitally, expanding access to learning materials beyond the physical collection.

Multimedia Room

The Multimedia Room is located on the 1st Floor of the New Building. This space serves as a venue for formal seminars, academic presentations, and meetings, providing a professional environment suited for instructional and organizational events attended by faculty, staff, and students.

Accreditation Room

The Accreditation Room is located on the 2nd Floor of the Cultural Building. This room serves as the dedicated space for the preparation, organization, and presentation of accreditation-related

documents and materials. It is where all accreditation evidence and records are compiled and made accessible during evaluation visits.

Faculty Room/ Student Consultation Room

The Faculty Room is located on the 2nd Floor of the New Building. This room serves as the primary workspace for faculty members, providing a conducive environment for lesson planning, academic work, and professional collaboration. The faculty room also includes a designated Student Consultation Room, where students may approach their professors for academic guidance, thesis or capstone consultations, and other academic concerns outside of class hours.

List of Software Used

The following table presents the different software installed on the desktop computers in both Computer Laboratories 1 and 2, as well as the applications used by faculty in delivering instruction for the BSIT program.

ICON	APPLICATION	WEBSITE/SOURCE	DESCRIPTION
	Visual Studio Code (VSCode)	https://code.visualstudio.com	A free, open-source code editor with support for numerous programming languages, extensions, and debugging tools.

	Adobe Suite (Photoshop, After Effects, etc.)	https://www.adobe.com	A collection of professional creative applications for graphic design, video editing, and digital media production.
	Notepad++	https://notepad-plus-plus.org	A free source code editor that supports multiple programming languages and runs in the Windows environment.
	Mu Editor	https://codewith.mu	A simple Python code editor designed for beginners, supporting MicroPython and Python 3.
	Google Chrome / Google Suite	https://www.google.com	A web browser and suite of cloud-based tools including Docs, Sheets, and Drive for productivity and collaboration.
	Microsoft Teams	https://www.microsoft.com/en-us/microsoft-teams	A collaboration platform used by faculty for online classes, file sharing, meetings, and student communication.
	PUP STC Learning Management System (LMS)	https://pupstc.dpdns.org/submissions/?page=login	The official LMS of PUP Sto. Tomas Campus used for course submissions, assignments, and academic management.

Rooms and Buildings

New Building

The New Building is a four-story structure that houses multiple classrooms, faculty offices, and the Multimedia Room. Each classroom is equipped with a Smart TV, providing a modern visual aid for lectures and presentations. While not air-conditioned, the rooms are spacious and adequately ventilated with electric fans. Each room is also equipped with standard whiteboards, electrical outlets, and sufficient seating for students. Additionally, the New Building houses offices where students may borrow projectors for use in academic activities and presentations.

Cultural Building

The Cultural Building houses key academic resources including the campus Library and the Accreditation Room on its 2nd Floor. This Building is a 3-storey building where the Auditorium and student organizations related to culture and arts' office are located.

Main Building

Website: www.pup.edu.ph | Inquiries: <https://bit.ly/PUPSINTA>
**A LEADING COMPREHENSIVE
POLYTECHNIC UNIVERSITY IN ASIA**

The Main Building serves as the primary academic structure of PUP Sto. Tomas Campus. It is home to the BSIT program’s two computer laboratories on its 2nd Floor, and hosts various classrooms and administrative offices used for the delivery of instruction and student services.

Gymnasium

The Campus Gymnasium serves as a multi-purpose facility for physical education, sports activities, school events, and large-scale gatherings. It supports the holistic development of students by providing a dedicated venue for co-curricular and extracurricular activities.

PUP Sto. Tomas Covered Court

NUMBER OF CLASSROOMS PER BUILDING

The University has 20 usable classrooms which all are fully equipped, well-lighted, and well-ventilated. Below is the table for the number of classrooms per Building.

Learning Management System (LMS)

The PUP Sto. Tomas Campus also operates using a Learning Management System (LMS) accessible at <https://pupstc.dpdns.org/submissions/?page=login>. This platform is used by BSIT faculty for managing course submissions, tracking assignments, and facilitating academic activities in an organized digital environment.

[PUP Learning Management System](#)

Microsoft Teams

Microsoft Teams is utilized by PUP Sto. Tomas Campus BSIT faculty as a primary platform for online and hybrid instruction. It supports virtual classes, file sharing, real-time messaging, meeting scheduling, and video conferencing, enabling seamless communication between students and teachers.

Google Classroom

Google Classroom is also used by BSIT faculty to facilitate course delivery, post learning materials, collect student work, and provide timely feedback. Its integration with other Google tools such as Google Docs, Sheets, and Drive makes it a versatile platform for academic collaboration and resource sharing.

Published Papers in National and International Journals

The faculty members of the BSIT program at PUP Sto. Tomas Campus actively engage in scholarly research and contribute to the advancement of knowledge in information technology and related disciplines. Faculty research output spans artificial intelligence, cybersecurity, systems development, and program evaluation, with publications in IEEE Xplore and other refereed national and international journals. The following table presents research papers published or presented by the BSIT faculty.

Research Title	Researcher/s	Journal / Conference / Publication	Date Presented / Published	Publication
Digital Wallet: Usage and its Security for Cashless Society	Castillo, M.L.	International Science, Technology and Engineering Conference (ISTEC) / CRC Press	Dec. 7-9, 2022 / Pub. June 2024	CRC Press
Impact Study of the IT's4EveryJuan Extension Program	Castillo, M.L.	International Multidisciplinary Research and Extension Conference (IMREC) Book of Abstract	Sept. 22-25, 2023	IMREC 2023 Book of Abstract
Automated Currency Identification: A CNN Approach to Philippine Banknote Recognition	Castillo, M.L.; De Luna, R.G.; Armando, R.R.; Bocalbos, M.L.; Fernandez, J.; Malacaman, K.A.; Natividad, J.; Ramos, J.J.; Salcedo, S.M.;	IEEE International Conference on Imaging Systems and Techniques (IST) / IEEE Xplore	Oct. 14-16, 2024 / Pub. Nov. 28, 2024	IEEE Xplore
Symptobot: An AI Diagnostic Website Enhancing Psychological First Aid and Psychiatric Collection and Analysis of Symptoms	De Luna, R.G.; Castillo, M.L.; Torres, A.A.; Tubola, O.D.; Oldan, B.R.; Javier, N.; Arias, G.; Gorom, J.N.; Villanueva, C.P.	2025 7th International Workshop on Artificial Intelligence and Education (WAIE 2025) / IEEE Xplore	Sept. 27-29, 2025 / Pub. Feb. 16, 2026	IEEE Xplore
Assessing AI-Driven Psychological First Aid: A Case Study of SymptoBot Using ISO/IEC 25010 and Technology Acceptance Model (TAM)	Castillo, M.L.; De Luna, R.G.; Tubola, O.D.; Torres, A.A.; Oldan, B.R.; Gorom, J.N.	2025 7th International Workshop on Artificial Intelligence and Education (WAIE 2025) / IEEE Xplore	Sept. 27-29, 2025 / Pub. Feb. 16, 2026	IEEE Xplore

Mapping Technical Vocational Pathways: Rapid Assessment of Current and Future Trends and Demands	Bolambot, E.	Dangal Research Refereed Journal	Apr. 25, 2024	Dangal Research
CAREERIN: Web-Based Internship Posting for Senior High School and College Using Job Matching Algorithms	Bolambot, E.	InstaBright Publication	May 2025	InstaBright

An Integrated Web-Based System for Barangay Document Requests and Community Reporting Services	Angeles, E.V.; Dela Torre, M.J.; Idanan, M.T.; Macatangay, J.M.H.; Melitante, D.G.	ISITE IICIMR		

III. Internally-Funded Research Works of the Faculty

The campus has supported research initiatives through internal funding from the Polytechnic University of the Philippines Institutional Planning Office (IPO). The following lists the internally-funded research projects undertaken by BSIT faculty, including those with IPO certifications. Highlighted entries for Symptobot and Isko-AI Care have received official PUP IPO certification, confirming institutional recognition and support.

Name	Research Title	2022	2023	2024	2025–2026

Copy of Certificates – Dr. Castillo

Among the training activities documented, the BSIT faculty participated in the Year-End Management Review cum Faculty Development Program 2024, where seminar workshops on Table of Specifications (TOS) and Test Construction, Classroom Management, and Learning Assessment were conducted. This was held in December 2024 with Dr. Elmer De Jose as speaker. This directly responded to the AACCUP recommendation to periodically conduct such workshops for BSIT faculty, resulting in 100% compliance as documented in the campus Compliance Report.

**Inter REAP3 (Research Activities: Production, Presentation, and Publication/Patent)
For Regular Faculty Members**

As part of the PUP Research Management Office's initiative to strengthen faculty research competencies, BSIT faculty members participated in the Inter REAP3 training-workshop series. This program equips faculty with advanced research skills across qualitative, quantitative, mixed-method, and multivariate research approaches, directly supporting the program's growing research publication output.

A LEADING COMPREHENSIVE
POLYTECHNIC UNIVERSITY IN ASIA

Bachelor of Science in Information Technology Extension Programs and Projects

The Bachelor of Science in Information Technology extension programs and projects at PUP Sto. Tomas Campus are results of consultation among officials, faculty members, and students of the campus, integrated with the university's priority extension agenda and national development thrusts. As a result, the BSIT faculty and Computer Society students directed and implemented a series of extension programs and projects, serving various community and institutional beneficiaries. These programs demonstrate the program's commitment to community engagement, technology transfer, and social responsibility.

Summary of Extension Programs

Title of Extension Program	Beneficiaries	Date Conducted	Special Order
Applicant Tracking System (ATS) — Torres Technology Center Corp.	HR Dept., Torres Technology Center Corp.	Jan.-Apr. 2025	SO TBA
Barangay E-Governance System (BES) — Brgy. 128, Balut, Tondo	Barangay Officials and Residents of Brgy. 128, Tondo, Manila	2024	SO 6865, S. 2024
Barangay Computer Literacy Program (BCLP)	Community members in partner barangays	2024	SO 3533, S. 2024
Lingap Komunidad — Malusog na Kabataan para sa Magandang Kinabukasan	Community youth and families	TBA	SO on file

1. Applicant Tracking System (ATS) for Torres Technology Center Corporation

From January to April 2025 (Phase I and II), the BSIT program implemented the Applicant Tracking System (ATS) System Development and Deployment Project in partnership with Torres Technology Center Corporation. Led by Project Consultant Dr. Armando A. Torres, Project Leader Dr. Melani L. Castillo, and Co-Leader Assoc. Prof. Abegail A. Malabuyoc, the project team also included Mr. Aristeo Dela Rea, Mr. Christopher Jay De Claro, Dr. Marienel Velasco, Ms. Elaine Bolambot, and selected Computer Society (COMSOC) students who served as system developers, trainers, and documentation officers. The ATS was designed to streamline the HR Department's recruitment and hiring processes through a centralized, automated platform for managing the full recruitment lifecycle, from job posting to applicant screening and selection. The project had an estimated cost of PhP 49,150.00. The system reduces manual workload, minimizes processing errors, and enables data-driven hiring decisions.

2. Barangay E-Governance System (BES) for Barangay 128, Balut, Tondo, Manila

The BSIT program developed and deployed the Barangay E-Governance System (BES) for Barangay 128, Balut, Tondo, Manila, as an extension project authorized under Special Order No. 6865, Series of 2024. The system was designed to digitize and streamline barangay operations, covering resident management, document request processing (including Barangay Clearance, Certificate of Residency, Certificate of Indigency, Barangay Permit, and other standard certificates), report generation, and user account management with role-based access control. BSIT faculty and Computer Society students served as system developers and implementers, directly applying their technical expertise to address the needs of a local government unit and support more efficient and transparent barangay governance.

3. Barangay Computer Literacy Program (BCLP)

The Barangay Computer Literacy Program (BCLP), authorized under Special Order No. 3533, Series of 2024, is an extension initiative of the BSIT program that extends computer literacy training to community members in partner barangays. The program equips participants with foundational digital skills relevant to daily life, livelihood, and participation in the digital economy, reflecting the campus's dedication to inclusive technology access and community empowerment.

4. Lingap Komunidad — Malusog na Kabataan para sa Magandang Kinabukasan

The Lingap Komunidad outreach program, 'Malusog na Kabataan para sa Magandang Kinabukasan,' is a community health and wellness initiative conducted by PUP Sto. Tomas Campus in partnership with community stakeholders. This program reflects the broader extension mandate of the campus, engaging BSIT students and faculty in multidisciplinary

outreach activities that go beyond technology to address the holistic needs of the communities they serve.

Student Achievement / Accomplishment (2023-2026)

The students of the BSIT program at PUP Sto. Tomas Campus have demonstrated outstanding participation and accomplishments across a wide range of academic, co-curricular, and community activities. From international research conferences and hackathons to campus-wide competitions and community service, BSIT students consistently represent the program with excellence. The following documents student achievements and activities from October 2023 to March 2026. In total, the program recorded 127 accomplishments, covering 66 competitions, 36 achievements, 11 events, 8 seminars, 3 research and project entries, and 3 collaboration activities.

Competitions	Achievements	Events	Seminars	Research / Projects	Collaborations
66	36	11	8	3	3

Notable Competitions and Achievements (2023-2026)

BSIT students from PUP Sto. Tomas Campus have excelled in competitive arenas at the local, national, and international level. The following table summarizes key competitions and achievements of the program's students.

Name/s	Event / Competition	Level	Date
Mariah Carmela M. Silvano; Gabriel C. Percal; Gerald P. Limutos; Guillian Ann T. Javier; Ronald Mischa D. Gacis (mentor: Dr. Melani Castillo)	ASEAN AI Hackathon 2026 — International Participation	International	March-July 2026
Kaye Cristobal; Lea Cydea O. Piga; Mc Genrev P. Egar; Christian Paul C. Villanueva; Emikhail Vincent P. Manalang	ICBIR 2025 — Deep Learning-Driven Mobile App for Rice Crop Disease Detection Using CNN	International	May 22-23, 2025
Mark Roland A. Gaiten; Roland John Villar; Dustine Kyle M. Garcia; Dgenlord Phelippe C. Leynes; Liah Allyzadra B. Santos	ICBIR 2025 — Bridging Language Gaps: An Offline Mobile Translation App for Filipino Dialects	International	May 22-23, 2025
Emanuel Vincent M. Angeles Mark Joseph R. Dela Torre Mark Tristan C. Idanan Janna Mae H. Macatangay Daniel G. Melitante	iSITE International Conference on Innovation and Multidisciplinary Research (IICIMR 2026) — Successful Research Paper Presentation	International	May 8, 2026

Sentinels: MLBB Men	PCC Regional Cup Season 4 (Philippine Collegiate Championship)	National	May 23–24, 2026
Students (Batangas IT Society x DOST Batangas)	BITS x DOST Batangas Pitching Competition — Participation	Regional	2025-2026
BSIT Students (PUP PYLON TBI)	Startup Incubation Cohort II Program — Participation	National	2025-2026

Name/s	Event / Competition	Level	Date
Sentinels: MLBB Men	Inosluban Inter-Barangay MLBB Tryouts (Team: Syntax Error) — 2nd Placer	Local	Mar. 8, 2026
Sentinels: MLBB Men	MSL Online Tournament (Team: SYNC) — 3rd Placer	Local	Sept. 22, 2025
Sentinels: MLBB Men	MSL Online Tournament (Team: Syntax Error) — Champion	Local	May 02, 2026

Student International Research Presentation — ICBIR 2025 (Bangkok, Thailand)

In May 2025, BSIT students from PUP Sto. Tomas Campus made a significant mark on the international stage by presenting their research at the International Conference on Business and Innovative Research (ICBIR 2025) held in Bangkok, Thailand on May 22-23, 2025. Two groups competed: the first group presented a deep learning-based mobile application for rice crop disease detection using Convolutional Neural Networks (CNN), while the second group presented an offline mobile application for Filipino dialect translation. These presentations demonstrated the students' capacity to conduct meaningful, publication-level research with real-world impact.

International Research Conference — iSITE IICIMR 2026

On May 8, 2026, BSIT students participated as researchers under the Information Systems Category at the iSITE International Conference on Innovation and Multidisciplinary Research (IICIMR 2026). Their research paper was successfully presented at the conference, further demonstrating the program's dedication to research engagement at the international level and placing PUP Sto. Tomas Campus among institutions represented in international multidisciplinary research forums.

ASEAN AI Hackathon 2026 — International Participation (Team Devunix)

A team from PUP Sto. Tomas Campus, BSIT Program competed in the ASEAN AI Hackathon 2026, a prestigious competition that convenes top student innovators in artificial intelligence from across Southeast Asia. Among 20 PUP System teams, 1 were from PUP Sto. Tomas. Team Devunix, composed of BSIT students from the Computer Society and mentored by Dr. Melani Castillo, developed an innovative AI-driven solution addressing real-world challenges. The hackathon ran from March to July 2026, providing a four-month platform for development and collaboration across ASEAN universities.

PUP University Hackathon 2025 — 3rd Place (UtHack ang Puhunan) Team Hacktivate

At the PUP University Hackathon 2025 (UtHack ang Puhunan) held on November 27–28, 2025, at PUP Sta. Mesa, Manila, Team Hacktivate of BSIT students from PUP Sto. Tomas Campus earned 3rd place, competing against teams from PUP campuses across the country. The team was composed of Emmanuel B. Managa, Marck Jedrick S. Mabalot, Christine Pineda, Princes Khyle Recana, and Mara Hanna Irish Tolentino, who showcased exceptional technical skills and innovative problem-solving throughout the competition.

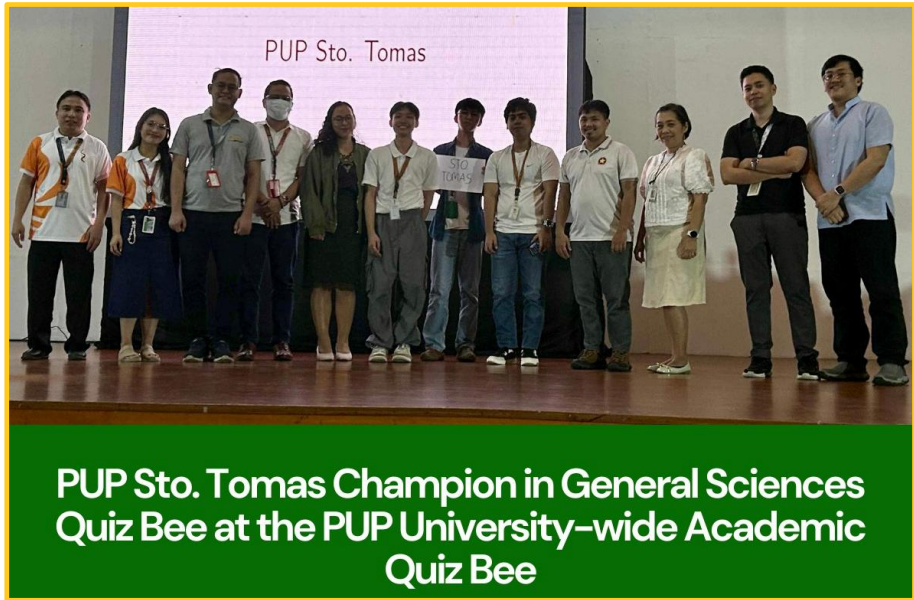

PUP University Hackathon 2025 — Champion (UtHack ang Puhunan) Team DevUnix

At the PUP University Hackathon 2025 (UtHack ang Puhunan) held on November 27–28, 2025, at PUP Sta. Mesa, Manila, Team DevUnix of BSIT students from PUP Sto. Tomas Campus emerged as champions, competing against teams from PUP campuses across the country. The team was composed of Mariah Carmela M. Silvano, Gabriel C. Percal, Gerald P. Limutos, Guillian Ann T. Javier, and Ronald Mischa D. Gacis, who demonstrated outstanding innovation and technical excellence to claim the championship title.

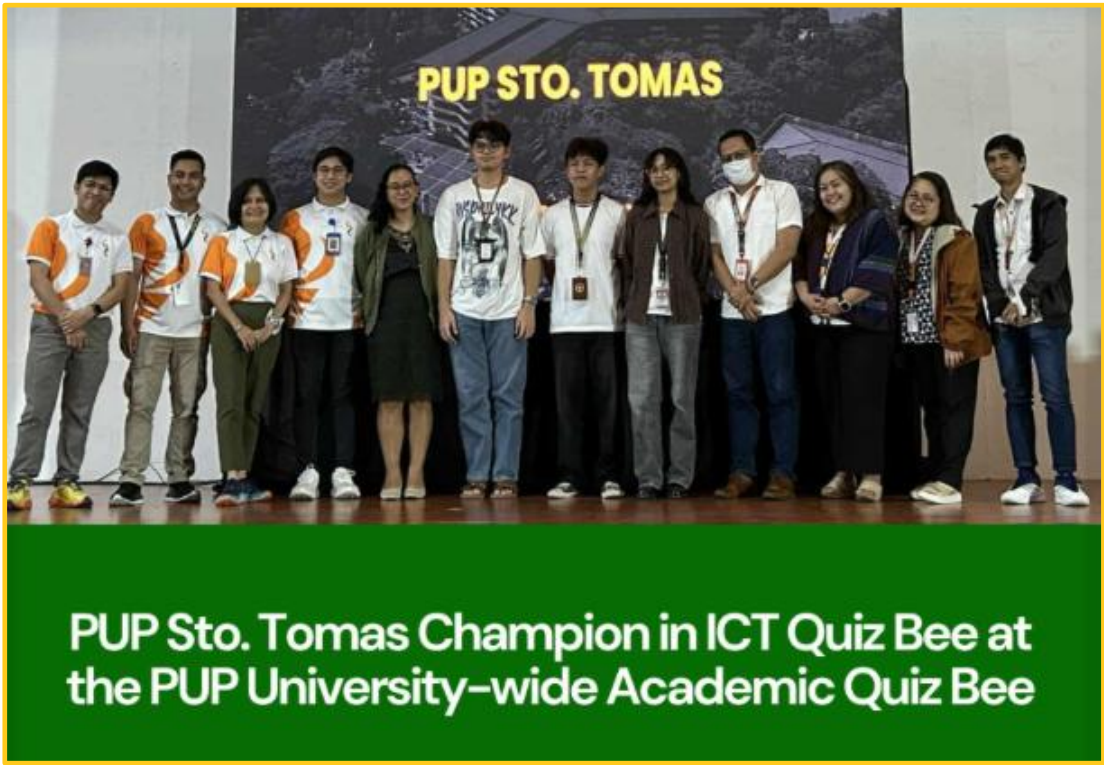

PUP Campuses Academic Quiz Bee — Champion (General Science Category)

On September 29, 2025, Emmanuel B. Managa, a BSIT student representing PUP Sto. Tomas Campus, claimed the championship in the General Science Category at the PUP Campuses Academic Quiz Bee held at PUP Sta. Mesa, Manila, competing against students from PUP campuses across the country. Competing alongside teammates from various programs, Managa stood out as the champion of his category, reflecting the strong academic foundation of PUP Sto. Tomas Campus students on a university-wide stage.

PUP Campuses Academic Quiz Bee — Champion (ICT Category)

On September 29, 2025, Gerald P. Limutos and Gabriel C. Percal, BSIT students representing PUP Sto. Tomas Campus, claimed the championship in the ICT Category at the PUP Campuses Academic Quiz Bee held at PUP Sta. Mesa, Manila, competing against students from PUP campuses across the country. Competing alongside teammates from various programs, Limutos and Percal demonstrated exceptional technical knowledge and academic excellence, bringing pride to PUP Sto. Tomas Campus on a university-wide stage.

KIWANIS Debate Competition 2025 — Best Speaker and Best Debater Awardees

In January 2025, BSIT students participated in the KIWANIS International Sto. Tomas Chapter: PUP-STC BSIT Final Debate Competition on Current National Socio-Political Issues, held at the PUP-STC Multimedia Room. The event was organized in partnership with KIWANIS International, a civic organization lending added prestige to the recognition. Numerous BSIT students were recognized as Best Speaker and Best Debater, demonstrating their critical thinking, communication skills, and awareness of national issues.

Computer Society Events and Activities

The PUP Sto. Tomas Campus Computer Society (ComSoc) is the primary student organization of the BSIT program. It regularly organizes activities that build technical competence, camaraderie, and community spirit among BSIT students. The following presents key events hosted or participated in by the Computer Society from 2023 to 2026.

Freshmen Orientations

Every academic year, the Computer Society welcomes incoming first-year BSIT students through a Freshmen Orientation. The 2025 orientation, titled 'Hugs, Bugs, and Debugs: The Computer Society Freshmen Orientation 2025,' was held on September 23, 2025, at the PUP-STC Gymnasium. In 2024, 'Kick-IT Off: Computer Society Freshmen Orientation 2024' took place on September 19, 2024, at the PUP-STC Multimedia Room. These orientations familiarize incoming students with the program, the organization, and the campus community, building a foundation for engaged and productive academic engagement.

General Assembly

The Computer Society holds annual General Assemblies that bring together all BSIT students for program-level activities, recognition of achievements, and community building. The 2025 General Assembly, themed 'Hackachu: Gotta Cache Em All,' was held on December 10-11, 2025, at the PUP-STC Gymnasium. The 2024 General Assembly, 'The Capitol's Game: The Computer Society General Assembly 2024,' was held on December 16-18, 2024. These flagship events celebrate the achievements of the ComSoc community and strengthen organizational bonds across year levels.

Website: www.pup.edu.ph | Inquiries: <https://bit.ly/PUPSINTA>

**A LEADING COMPREHENSIVE
POLYTECHNIC UNIVERSITY IN ASIA**

Sinta Fest: Campus Intramurals and Cultural Activities

The Computer Society holds annual General Assemblies that bring together all BSIT students for program-level activities, recognition of achievements, and community building. The 2025 General Assembly, themed 'Hackachu: Gotta Cache Em All,' was held on December 10-11, 2025, at the PUP-STC Gymnasium. The 2024 General Assembly, 'The Capitol's Game: The Computer Society General Assembly 2024,' was held on December 16-18, 2024. These flagship events celebrate the achievements of the ComSoc community and strengthen organizational bonds across year levels.

Seminars and Workshops

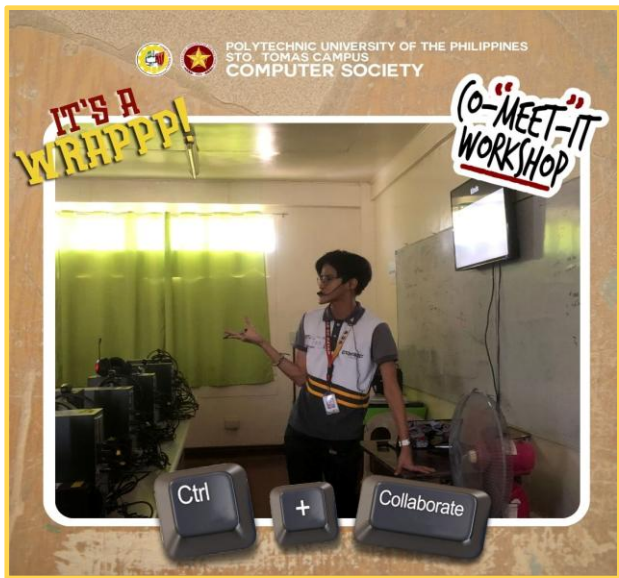

The Computer Society regularly organizes seminars and workshops to supplement classroom learning with practical and industry-relevant knowledge. Notable seminars include: 'From Algorithms to Intelligence: Computer Society Seminar' on December 5, 2025; 'HackTalks' on August 1, 2025; 'Ctrl + Collaborate: The ComSoc Co-Meet-IT Workshop' on November 28, 2024; 'Tech Quest: Decoding the Matrix of Software Development' on April 16,

Website: www.pup.edu.ph | Inquiries: <https://bit.ly/PUPSINTA>

**A LEADING COMPREHENSIVE
 POLYTECHNIC UNIVERSITY IN ASIA**

2024; 'Empower IT: Celebrating Women in Tech' on April 5, 2024; and 'Unlocking your Research Potential: Research Writing Essentials, Presentations, and Publications' on January 19, 2024. These activities equip students with skills in artificial intelligence, cybersecurity, research writing, and software development.

Community Service and Outreach

On October 9-10, 2024, the Computer Society, in partnership with barangay officials, conducted SKTK: Barangay Computer Literacy and Personality Development Phase 3 at the PUP-STC Accreditation Room. This outreach program extended computer literacy and personality development training to community members, reflecting the BSIT program's commitment to community service and inclusive technological access. The event is part of a continuing series that empowers local communities with digital skills relevant to everyday life and livelihood.

Collaboration Activities

Website: www.pup.edu.ph | Inquiries: <https://bit.ly/PUPSINTA>

**A LEADING COMPREHENSIVE
POLYTECHNIC UNIVERSITY IN ASIA**

BSIT students actively collaborated with other campus organizations and external institutions. Notable collaborations include: ISKOnnovation 2025: Eureka Collab Activities on May 26, 2025, co-organized by the Computer Society and ISC; ISKOLLECT: Inducing Services to Kindle Outreach Program on December 18, 2023, at Aruga Center, Lipa City, conducted jointly with JPIIE, PSYCHSOC, OECES, and ITECH; and the DOST-SEI Aghamazing Christmas Collab on December 19, 2024. These partnerships highlight the Computer Society's commitment to inter-organizational cooperation and service.

AWARDS OF DISTINCTION AND ACHIEVEMENT AND GRANTS OF THIS PROGRAM

Awards and Recognition

The BSIT program of PUP Sto. Tomas Campus has consistently distinguished itself through the achievements of its faculty, students, and the program as a whole. The awards and recognitions presented in this section are a testament to the campus's commitment to academic excellence, quality instruction, research productivity, and continuous improvement. These distinctions span program compliance, accreditation, institutional recognition, international research presentations, and individual faculty credentials.

1. AACCUP Accreditation — Level II Accredited Status

The Bachelor of Science in Information Technology program at PUP Sto. Tomas Campus successfully underwent the AACCUP (Accrediting Agency of Chartered Colleges and Universities in the Philippines) accreditation survey on September 19-23, 2022, resulting in the recognition of the program as Level II Accredited. The Compliance Report for Area III (Curriculum and Instruction), prepared by BSIT Program Coordinator Dr. Melani L. Castillo, documents 100% compliance on the following AACCUP recommendations: (1) inclusion of library-held references in course syllabi, (2) conduct of seminar-workshops on TOS, Test Construction, Classroom Management, and Learning Assessment for BSIT faculty, and (3) securing the COPC from CHED. A 90% compliance rate was recorded for efforts to increase alumni tracer response rates and conduct program effectiveness evaluations, both of which are ongoing and supported by published tracer research.

2. Certificate of Program Compliance (COPC) — CHED Regional Office IV, Calabarzon

The Commission on Higher Education Regional Office IV (Calabarzon) issued Certificate of Program Compliance No. 074, Series of 2023, to the Polytechnic University of the Philippines Sto. Tomas Campus on May 23, 2023. Signed by Dr. Virginia D. Akiate, CESO III, Director IV, the COPC certifies that PUP Sto. Tomas Campus complies with the prescribed minimum requirements of CHED to offer the Bachelor of Science in Information Technology program, effective Academic Year 2022-2023, in accordance with RA No. 7722 and CHED Memorandum Order No. 14, Series of 2019. The COPC is subject to revocation if the institution fails to maintain prescribed standards, and does not extend to any branch or satellite campus. This certification directly fulfilled the AACUP recommendation to secure COPC, resulting in 100% compliance on that item.

Click Link to View the Whole Copy of the Document/s Being Presented:

[COPC link](#)

3. ISO 9001:2015 Quality Management System Certification

As part of the Polytechnic University of the Philippines' institutional commitment to quality management, PUP Sto. Tomas Campus adheres to the ISO 9001:2015 Quality Management System. This certification covers academic processes including curriculum revision, syllabus development, classroom management, test construction, and student internship. ISO certification ensures that all processes consistently meet student and stakeholder requirements while supporting continuous improvement in service delivery. The University's ISO certification was issued by SOCOTEC and covers all PUP branches and campuses.

PUP Institutional Planning Office (IPO) Research Certifications

The Polytechnic University of the Philippines Institutional Planning Office (IPO) has issued certifications recognizing research projects undertaken by BSIT faculty as institutionally supported research. Two BSIT research projects have received IPO certification: (1) Symptobot: An AI Diagnostic Website Enhancing Psychological First Aid and Psychiatric Collection and Analysis of Symptoms, and (2) Isko-AI Care: Psychological AI-Driven Platform for Stress Management and Mental Health Support. These certifications confirm institutional recognition and backing of faculty-led research that directly involved BSIT students as developers and co-researchers.

POLYTECHNIC UNIVERSITY IN ASIA

Student Achievements and Awards

The students of the BSIT program at PUP Sto. Tomas Campus have earned numerous awards and distinctions across local, national, and international competitions and academic activities. These achievements directly reflect the quality of instruction, mentorship, and the students' determination to excel beyond the classroom. The following documents notable student awards from 2023 to 2026.

Summary of Student Awards and Distinctions

No.	Award / Achievement	Level	Year	Recipient/s
1	ICBIR 2025 — International Research Presentation	International	2025	10 students (2 groups)
2	iSITE IICIMR 2026 — International Research Presentation	International	2026	Multiple students
3	ASEAN AI Hackathon 2026 — International Participation	International	2026	Team Devunix
4	PUP University Hackathon 2025 — Champion	National	2025	10 students (2 groups)
5	PUP Quiz Bee — ICT and General Science Champion	National	2025	3 students
6	P20JECT YSES Future Ideator Quest — Champion	National	2025	2 students
7	YSES Hackathon 2024 — Champion	National	2024	3 students
8	KIWANIS Debate — Best Speaker and Best Debater	Local/Community	2025	Multiple students

1. International Research Presentations — ICBIR 2025 (Bangkok, Thailand)

At the International Conference on Business and Innovative Research (ICBIR 2025) held in Bangkok, Thailand on May 22-23, 2025, two groups of BSIT students from PUP Sto. Tomas Campus successfully presented their research papers at the international level. Group 1, composed of Kaye Cristobal, Lea Cydea O. Piga, Mc Genrev P. Egar, Christian Paul C. Villanueva, and Emikhail Vincent P. Manalang, presented a deep learning-based CNN mobile application for rice crop disease detection. Group 2, composed of Mark Roland A. Gaiten, Roland John Villar, Dustine Kyle M. Garcia, Dgenlord Phelippe C. Leynes, and Liah Allyzadra B. Santos, presented an offline mobile application for Filipino dialect translation.

Participation in an international research conference of this caliber is a significant distinction, demonstrating that student research output from PUP Sto. Tomas meets international academic standards.

2. International Research Conference — iSITE IICIMR 2026

BSIT students earned the distinction of presenting their research under the Information Systems Category at the iSITE International Conference on Innovation and Multidisciplinary Research (IICIMR) on May 8, 2026. This recognition placed PUP Sto. Tomas Campus among participating institutions in an international multidisciplinary research forum, contributing to the global academic community through student-authored research.

3. ASEAN AI Hackathon 2026 — International Participation (Team Devunix)

Team Devunix, composed of BSIT Computer Society students mentored by Dr. Melani Castillo, competed in the ASEAN AI Hackathon 2026, a prestigious competition that convenes student innovators in artificial intelligence from across Southeast Asia. Among 20 PUP System teams competing internationally, two were from PUP Sto. Tomas Campus, marking a significant distinction for the campus and confirming its standing in regional AI and technology innovation. The hackathon ran from March to July 2026.

4. PUP University Hackathon 2025 — Champion and 3rd Placer (UtHack ang Puhunan)

At the PUP University Hackathon 2025 (UtHack ang Puhunan) held on November 27-28, 2025, at PUP Sta. Mesa, Manila, two BSIT teams from PUP Sto. Tomas Campus competed against participants from PUP campuses across the country, with both teams placing in the top ranks. **Team Devunix** (Mariah Carmela M. Silvano, Gabriel C. Percal, Gerald P. Limutos, Guillian Ann T. Javier, and Ronald Mischa D. Gacis) emerged as **Champions**, while **Team Hacktivate** (Emmanuel B. Managa, Marck Jedrick S. Mabalot, Christine Pineda, Princes Khyle Recana, and Mara Hanna Irish Tolentino) claimed **3rd Place**. Having two teams from the same campus both place in a university-wide hackathon is a strong testament to the depth of technical talent and collaborative problem-solving skills within the BSIT program.

5. PUP University-Wide Academic Quiz Bee 2025 — ICT and General Science Champions

The PUP Sto. Tomas Campus BSIT students contributed to strong performances in the PUP Campuses Academic Quiz Bee 2025 held on September 29, 2025 at PUP Sta. Mesa, Manila, where participants came from different programs and campuses rather than competing as a single BSIT-only team. Emmanuel B. Managa was recognized as Champion in the General Science category, while Gerald P. Limutos and Gabriel P. Percal secured the Championship in the ICT category. These achievements highlight the academic excellence of BSIT students and their contribution to their respective mixed teams, reflecting the program's commitment to holistic intellectual development.

6. P2OJECT YSES: Future Ideator Quest — Champion (UP Los Banos, April 2025)

James Matthew Llanos and Mark Jayson Agao won the championship at P2OJECT YSES: Future Ideator Quest, organized by the Young Software Engineers' Society of the University of the Philippines Los Banos, on April 12, 2025. Competing against teams from various universities, this win is a testament to the innovative thinking and technical proficiency of BSIT students

7. Youth Software Engineers' Society (YSES) Hackathon 2024 — Champion

Jerwin Lalap, Maria Christina Reta, and Jazz Christine Panganiban won the championship at the Youth Software Engineers' Society Hackathon 2024 held on April 24, 2024, via Microsoft Teams. Their victory in this national online

hackathon demonstrated the competitive edge of PUP Sto. Tomas BSIT students in software engineering and development challenges.

8. KIWANIS Debate Competition 2025 — Best Speaker and Best Debater Awardees

At the KIWANIS International Sto. Tomas Chapter: PUP-STC BSIT Final Debate Competition on Current National Socio-Political Issues held in January 2025 at the PUP-STC Multimedia Room, multiple BSIT students were recognized as Best Speaker and Best Debater by an external civic organization (KIWANIS International), lending added prestige to the recognition. This event highlighted the students' ability to engage critically with national issues, strengthening their communication, leadership, and analytical skills.

9. Computer Society — Organizational Affiliation and Recognition

The PUP Sto. Tomas Campus Computer Society, as the primary student organization of the BSIT program, holds organizational affiliations and recognitions that strengthen its legitimacy and network in the IT community. These affiliations provide students with access to professional networks, resources, and collaborative opportunities beyond the campus.

BEST PRACTICES

Best Practices

The Polytechnic University of the Philippines Sto. Tomas Campus, through its Bachelor of Science in Information Technology program, has established and embedded a series of exemplary instructional practices that embody the institution's dedication to academic excellence, operational efficiency, and ongoing improvement. These practices have been systematically developed and refined over time in response to the evolving requirements of students, faculty members, and the wider academic community. A number of these practices were formally recognized and commended during the AACUP accreditation evaluation and are substantiated by documentary evidence submitted as part of compliance records. Furthermore, numerous student-initiated best practices have been continuously upheld over five successive academic years, affirming that these are not incidental undertakings but genuinely institutionalized traditions within the BSIT program.

1. One System, One Policy

The Polytechnic University of the Philippines operates under a unified governance framework known as the One System, One Policy, which is implemented consistently across all its campuses and branch units. All institutional activities; encompassing planning, policy formulation, and program implementation, are conducted through the Executive Committee (EXECOM), presided over by the University President. This centralized governance structure fosters organizational cohesion among university officials and personnel, thereby ensuring clarity of institutional direction and uniformity in program delivery throughout all PUP campuses. At the PUP Sto. Tomas Campus, the BSIT program strictly adheres to this framework, maintaining consistency in curriculum delivery, faculty performance evaluation, and student service provisions across all sections and year levels.

One System, One Policy in Curriculum Evaluation

The University's One System, One Policy framework likewise governs its curriculum evaluation procedures. Curriculum reviews are conducted in a systematic and structured manner, incorporating perspectives from faculty members, students, industry partners, and institutional stakeholders. The BSIT program is guided by CHED Memorandum Order No. 25, Series of 2015, as its primary regulatory reference, and maintains a curriculum mapping matrix alongside a compliance matrix as documentary evidence of the coherent alignment between program outcomes and course content.

Supporting Document:

[BSIT Curriculum, Program Outcomes, and Curriculum Mapping Matrix](#)

[CMO No. 25, Series of 2015 — Policies, Standards, and Guidelines for BSIT](#)

2. Instructional Materials Development

The University places high priority on the creation and evaluation of instructional materials (IMs). Faculty members are encouraged and supported to develop printed and multimedia-based learning resources including course syllabi, modules,

Website: www.pup.edu.ph | Inquiries: <https://bit.ly/PUPSINTA>

A LEADING COMPREHENSIVE
POLYTECHNIC UNIVERSITY IN ASIA

workbooks, and laboratory manuals. The University Research Publications Office (RPO) and the University Printing Press (UPP) ensure that IMs meet standards for format, content, and copyright compliance before dissemination to students. Office Memorandum No. 09 governs the IM development process university-wide, covering both the Guidelines on Developing and/or Revising Instructional Materials and the Manual on Development and Assessment of Instructional Materials. For Academic Year 2024-2025, a specific Office Memo directed the Development and Revision of Instructional Materials to ensure all faculty comply with updated guidelines.

Supporting Documents:

[Guidelines on Developing/Revising Instructional Materials](#)

[Faculty Instructional Materials Samples](#)

[Memo on Development and Revision of IMs for AY 2024-2025](#)

3. Flexible Teaching and Learning (FlexTel)

The Flexible Technology Learning (FlexTel) modality is implemented each semester to accommodate students with varying levels of internet connectivity and access to technological devices, ensuring their continued participation and academic engagement. FlexTel operates through two distinct learning modes: Online Mode, designed for students who possess reliable internet access and appropriate devices, and Offline Mode, intended for students who are provided with pre-printed learning packets at the commencement of each semester. This instructional approach ensures that no student is disadvantaged due to limitations in connectivity, thereby reflecting the institution's steadfast commitment to inclusive and accessible education. In further demonstration of the administration's responsiveness to shifting instructional delivery requirements, the University formally issued Executive Order No. 12, which addresses the adjustment of learning modalities in response to extreme heat conditions.

Supporting Documents:

[Executive Order No. 12 — Shifting of Learning Modality](#)

[Memorandum on Flexible Technology-Enhanced Learning \(FLEXTEL\)](#)

[Sample Weekly Monitoring of Online Classes](#)

4. PUP Instruction and Teaching Effectiveness Evaluation System (PUP ITEES)

The PUP ITEES systematically summarizes, analyzes, and presents data collected through the Online Faculty Evaluation Survey (OFES), assessing the instructional and teaching practices of faculty members as evaluated by students, superiors, peers, and self. The OFES is accessible through the PUP website at the end of each semester. At PUP Sto. Tomas Campus, BSIT faculty participate in this evaluation cycle every semester, and results are used as inputs for faculty development planning, curriculum improvement, and instructional quality assurance.

Supporting Documents:

[PUP ITEES or Faculty Evaluation Results](#)

5. University Online Resources

The Polytechnic University of the Philippines extends complimentary trial access to thousands of Science, Technology, and Engineering

6. Effective University Risk Management System

As an integral component of the University's Quality Management System, and under the guidance of the Quality Management Representative and the Vice President for Research, Extension, and Development, the Risk Management Committee is responsible for cultivating and enforcing a risk-based mindset and approach in the conduct of various institutional processes. The PUP Sto. Tomas Campus acknowledges that an effective risk management system constitutes a fundamental element of sound governance and exemplary management practice, serving to assist the University in fulfilling its statutory mandates and achieving its strategic objectives. This commitment to risk management is concretely manifested in the campus's ISO 9001:2015 certification, which incorporates risk management protocols within its defined scope of institutional activities.

Supporting Documents:

[Risk Registry of PUP Sto. Tomas](#)

7. Exit Survey and Tracer Study

Student progress is monitored every year through qualifying examinations, internship mentoring from industry, academic-industry dialogues, and comprehensive examinations. To ensure the quality of services and program offerings, the University conducts Exit and Tracer Studies to its students twice a year. At PUP Sto. Tomas Campus, the BSIT program has conducted a formalized Three-Year Tracer Study of BSIT Graduates (SY 2020-2022), authored by Dr. Melani L. Castillo and Ms. Elaine Bolambot, covering 136 respondents across three graduating cohorts. Key findings include an employment rate of over 82% within six months of graduation, with more than 90% of employed respondents rating their BSIT training as relevant to their current work. A second study, 'Performance Evaluation and Industry Alignment of the BSIT Program of PUP Sto. Tomas Campus,' further validates the program's alignment with industry demands and CHED standards.

8. PUP Electronic Quarterly Accomplishment Reporting (PUP eQAR)

The campus prepares a quarterly accomplishment report (eQAR) to monitor progress towards reaching target outcomes. The eQAR includes attendance in university functions, viable demonstration projects, awards and recognitions received by the campus and branch, students' achievements from reputable organizations, community relations, outreach programs, and students' training and seminars. The information included in the eQAR is also reflected in the OPCR of the faculty. This systematic reporting practice ensures accountability, transparency, and consistent monitoring of program activities throughout the academic year.

Student-Led and Program-Initiated Best Practices

Beyond institutional policies and faculty-driven practices, the BSIT program at PUP Sto. Tomas Campus is distinguished by student-led best practices that have become defining features of the program's culture. These practices are documented through official Computer Society Accomplishment Reports submitted annually since AY 2020-21. The sustained conduct of these activities over five academic years is strong evidence of institutionalization, a key criterion in quality assurance evaluation.

Most of the student-led activities are posted in the official [FB Page of the Computer Society](#).

1. Annual Freshmen Orientation — 5 Consecutive Years (AY 2020-21 to AY 2024-25)

The Computer Society conducts a Freshmen Orientation every academic year without exception, making it one of the most consistently practiced institutionalized activities of the BSIT program. Each orientation is designed to integrate incoming first-year students into the university community, introduce them to the Computer Society's mission and activities, and connect them with senior students and mentors.

Resource speakers have included alumni professionals such as Mr. Christopher Jay De Claro and faculty members including Dr. Melani Castillo and Mr. James Benedict Palma. The activity has been conducted in varying formats to adapt to circumstances — online via Discord (AY 2020-21), via Google Meet (AY 2021-22), via Microsoft Teams (AY 2022-23), and face-to-face at the campus gymnasium and multimedia room (AY 2023-24 and AY 2024-25) — demonstrating program resilience and commitment to student orientation regardless of delivery modality.

[Computer Society Freshmen Orientation 2025](#)

<https://www.facebook.com/share/p/193gVJ8nvA/>

Academic Year	Event Name / Theme	Mode	No. of Participants	Notes

2. Annual General Assembly — 5 Consecutive Years (AY 2020-21 to AY 2024-25)

The Computer Society holds an Annual General Assembly every academic year, serving as the flagship gathering of all BSIT students for organizational updates, recognition of achievements, e-sports competitions, seminars, and community building. The General Assembly has evolved in theme and format over the years, adapting from fully online formats during the pandemic period to hybrid and fully face-to-face events as health restrictions eased. Each General Assembly includes seminars relevant to the IT field, making it both a co-curricular and community-building activity.

Academic Year	Event Name / Theme	Mode	No. of Participants	Notes
AY 2020-21	E-Sports Elimination Tournament (29th Founding Anniversary)	Online (Facebook Live)	61	Jan. 19-20, 2021; Mobile Legends and Call of Duty Mobile

Supporting Evidences:

[COMSOC General Assembly 2025](#)

3. Annual Technical Seminars and Webinars — 5 Consecutive Years (AY 2020-21 to AY 2024-25)

The Computer Society conducts at least one technical seminar or webinar each academic year, providing BSIT students with learning opportunities on topics beyond the standard curriculum. Topics have progressed from career guidance and cybersecurity basics in earlier years to more advanced subjects including mobile development, PHP frameworks, AI, and cybersecurity capture-the-flag challenges in recent years. These seminars are conducted as co-curricular activities, directly aligned with the BSIT program's learning objectives.

Academic Year	Event Name / Theme	Mode	No. of Participants	Notes
AY 2020-21	I-Tech to the Future: A Career Preparation Webinar for Aspiring Innovators (via Google Meet)	Online	55	May 15, 2021; PUP Alumni as resource speakers
AY 2021-22	Cyberworld: You in the Online World — Cybersecurity and Gender Development Webinar	Online	All members	July 9-10, 2022; covered cybersecurity, cyberbullying, gender awareness
AY 2022-23	Laravel: Introduction to PHP Framework for Web Artisans (COMSOC + GDSC + ITECH)	Online (MS Teams)	All IT Students	Nov. 26, 2022; collaborative seminar with Google Developer Student Club

Academic Year	Event Name / Theme	Mode	No. of Participants	Notes
AY 2023-24	Unlocking your Research Potential: Research Writing Essentials, Presentations, and Publications	Online (MS Teams)	3rd and 4th Year BSIT	Jan. 19, 2024; research writing skills for senior students
AY 2024-25	Ctrl + Collaborate:The ComSoc Co-Meet-IT Workshop	Face-to-Face	All IT Students	Nov. 28, 2024; Seminar and workshop covering utilization of different tools in the IT Field
AY 2025-26	From Algorithms to Intelligence: Your Journey to Artificial Intelligence and machine learning.	Face-to-Face	3rd and 4th Year BSIT	December 2, 2025; deep dive into how machines learn, adapt, and make decisions, mirroring human intelligence in surprising ways.

4. Annual Community Outreach and Social Responsibility Activities — 5 Consecutive Years

The Computer Society has demonstrated a sustained commitment to community service and social responsibility across five academic years. From charity gift-giving activities to multi-phase computer literacy programs, ComSoc students have consistently extended their skills and resources to communities outside the campus. The SKTK (Serbisyo sa Komunidad Through Knowledge) Barangay Computer Literacy and Personality Development Program is the flagship outreach initiative, having progressed through multiple phases in partnership with local barangay units in the City of Sto. Tomas, Batangas.

Academic Year	Event Name / Theme	Mode	No. of Participants	Notes
AY 2021-22	Awarding for Outstanding Students (internal recognition)	Online	227	Apr. 30, 2022; recognized DOST-SEI, DOST JLSS, and Smart InnoGen passers
AY 2022-23	Arise and Give (Christmas charity with ASCM)	Face-to-Face	Children of Purok 3, Sto. Tomas, Batangas	Dec. 16, 2022; gift-giving and communal activities with ASCM
AY 2022-23	SKTK: Basic Computer Literacy and Personal Development Project (Phase 1)	Face-to-Face	Barangay Officials	July 20-21, 2023; first phase of the SKTK extension program
AY 2023-24	ISKOLLECT: Inducing Services to Kindle Outreach Program	Face-to-Face	Underserved communities, Aruga Center, Lipa	Dec. 18, 2023; food aid, educational workshops, with JPIIE,

Academic Year	Event Name / Theme	Mode	No. of Participants	Notes
			City, Batangas	PSYCHSOC, OECEs, ITECH
AY 2024-25	SKTK: Barangay Computer Literacy and Personality Development Phase 3 (Barangay Dos, Sto. Tomas, Batangas)	Face-to-Face	Youth of Barangay Dos, City of Sto. Tomas, Batangas	Oct. 9-10, 2024; digital skills and personality development training

5. Annual Organizational Shirt and Design Competition — 3 Consecutive Years (AY 2022-23 to AY 2024-25)

Since AY 2022-23, the Computer Society has institutionalized an annual organizational shirt initiative that doubles as a student design competition. Known as DesignSpiration in AY 2023-24 and the 1st Organization Shirt Competition in AY 2024-25, the activity invites BSIT students to design the official ComSoc shirt for the academic year, incorporating elements that symbolize unity and pride within the IT community. The initiative fosters creative development, promotes program identity, and builds a sense of belonging among students. The AY 2024-25 competition featured five original designs submitted by the Design Committee.

6. Isko AI-Care — Institutional AI Research Project (Faculty Collaboration – on-going)

On May 26, 2025, the BSIT faculty and Computer Society launched the Isko AI-Care Institutional Research Project at PUP Sto. Tomas Campus. Developed by Dr. Melani L. Castillo and Dr. Marienel Velasco and certified by the PUP IPO, Isko-AI Care is a psychological AI-driven platform for student stress management and mental health support. This initiative represents a best practice in integrating student-faculty collaboration with applied research, where students actively participate in a campus-level project addressing real institutional needs through artificial intelligence. The project bridges the gap between academic research and practical application, preparing students for research-driven careers in IT.

7. Symptobot — Student-Faculty Research Collaboration Published in IEEE Xplore

Symptobot is a best practice in student-faculty collaborative research that produced two internationally peer-reviewed publications accepted at WAIE 2025 in Yokohama, Japan, and published in IEEE Xplore. Developed by Dr. Melani L. Castillo, Dr. Armando Torres, Dr. Robert De Luna, and collaborating BSIT students including Christian Paul Villanueva, Nathalie Javier, Gilliane

8. Technology Extension Projects — ATS and Barangay E-Governance System

The BSIT program has institutionalized a best practice of engaging students in real-world technology extension projects. The Applicant Tracking System (ATS) developed for Torres Technology Center Corporation (January-April 2025) and the Barangay E-Governance System deployed for Barangay 128, Balut, Tondo, Manila (authorized under Special Order No. 6865, Series of 2024) are two examples where BSIT faculty and Computer Society students worked as system developers, trainers, and documentation officers for actual client organizations. This practice closes the gap between academic learning and industry deployment, giving students hands-on experience in real project environments with actual stakeholders and institutional accountability.

9. Ctrl + Collaborate — Co-Meet-IT Peer Learning Workshop

The Ctrl + Collaborate: ComSoc Co-Meet-IT Workshop held on November 28, 2024, at the PUP-STC Computer Laboratory is a best practice in peer-facilitated learning. Led by Mr. Christopher Jay De Claro, the workshop's three committee-focused sessions (Design Committee, Publications Committee, and Program Committee) equipped members with practical skills in graphic design, publication layout, content creation, and event management — all conducted hands-on using the newly installed computers in Computer Laboratory 2. This practice fosters collaborative learning and bridges the gap between organizational roles and professional readiness.

10. Computer Laboratory Maintenance & Restoration — Student-Driven Facilities Stewardship

On August 27, 2025, the Computer Society led the Computer Laboratory Restoration activity, where BSIT students voluntarily cleaned, organized, and restored the campus computer laboratories. This

POLYTECHNIC UNIVERSITY IN ASIA**

practice reflects a culture of student stewardship over shared academic facilities, instilling responsibility, teamwork, and pride in the resources students rely on for their studies. Student-led facilities care of this kind is a unique and commendable best practice in the BSIT program that goes beyond academic requirements.

12. Annual OJT Appreciation Day – Culminating Activity

The OJT Appreciation Day serves as the culminating activity of the On-the-Job Training (OJT) program. It aims to recognize and celebrate the students' successful completion of their internship experiences, acknowledge the support of partner industries and supervisors, and provide a venue for interns to share their learning, accomplishments, and best practices. The activity includes recognition ceremonies, presentation of internship experiences, awarding of outstanding interns and partner institutions, and fellowship activities that highlight the value of industry-academe collaboration in preparing students for professional careers.
